EXECUTIVE SUMMARY

Fiscal Year 2006 Annual Operating Budget

Executive Summary

The Vice President for Administration recommends approval of the University's Fiscal Year (FY) 2006 operating budget, covering the allocation of estimated operating income from all sources. The recommended \$3.520 billion operating budget represents a \$37.8 million (2.6 percent) increase in unrestricted funds, a \$69.6 million (3.6 percent) increase in restricted funds, and a \$107.4 million (3.1 percent) increase in all operating funds from FY2005. The Vice President for Academic Affairs and the Vice President for Administration prepared the budget based upon: (1) Board of Trustees policies, institutional priorities, and directives on the configuration of the internal operating budget established in consultation with senior academic leaders, (2) Chancellor's and Provost's recommendations after consultation with deans, directors, and other University officers on the methods and means of best executing the Board's policies and institutional priorities, (3) the President's recommendations, and (4) the terms and conditions of restricted funds. This document represents the final result of an almost two year long budget planning cycle led by University and campus administration, in conjunction with Board oversight and review. A timeline of the budget cycle is presented in Appendix A

The following is an executive summary of the University's FY2006 operating budget. The accompanying supporting schedules detail the budget by campus, college, and department.

University Revenue Budget FY2006

The University operating budget includes both unrestricted and restricted funds. Unrestricted funds are available for allocation at the discretion of the University. Restricted funds are available only for those programs and purposes specified by the donor, grantor, contractor, or state statute.

The University classifies unrestricted funds for budgetary purposes as state funds and institutional funds. State funds include both direct state appropriations to the University and the University Income Fund. Direct state appropriations represent operating support provided by the Governor and General Assembly from the General Revenue Fund, the Fire Prevention Fund, and the University Trust Fund (scholarships funded from license plate revenue). The University Income Fund includes tuition and miscellaneous University revenue. Institutional funds include indirect cost recovery (ICR), royalty, and administrative allowance funds.

Restricted funds include estimated revenue from grants and contracts (i.e., sponsored projects), federal appropriations, private gifts, endowment income, Medical, Dental & Nursing Service Plans (MSP, DSP, & NSP), Auxiliaries & Departmental Operations (e.g., Assembly Hall, Housing, Memorial Stadium, Parking, Pavilion, Sangamon Auditorium, Union operations, Intercollegiate Athletics, patient care at the Colleges of Dentistry, Pharmacy, and Veterinary Medicine, etc.), University Hospital, and state payments on behalf of the University. The following table compares the FY2005 and FY2006 operating revenue budget by source of funds. All amounts are in thousands.

Total Revenue Budget	\$3,412,589	\$3,520,026	\$107,437	3.1%
----------------------	-------------	-------------	-----------	------

Unrestricted Funds

- **State Appropriations.** The total appropriation decreased by \$296 thousand. That change includes a decrease of \$550 thousand from the General Revenue Fund resulting from the elimination of two special legislative programs: \$300 thousand for a study of rate reimbursements for mental health enterprises, and \$250 thousand for a UIC early outreach program. That decline is partially offset by an increase of \$254 thousand from the Fire Prevention Fund for the Fire Services Institute.
- **Income Fund.** The recommended \$486.3 million FY2006 University Income Fund budget represents incremental tuition income of \$32.7 million based upon Board-approved tuition increases of seven percent for continuing students and nine percent for new students, along with more targeted rate changes for specific programs and adjustments for enrollment levels.

The FY2006 University Income Fund revenue budget is net of tuition waivers of approximately \$198.0 million. There are two basic categories of waivers for undergraduates, statutorily mandated waivers and discretionary institutional waivers. The state limits

undergraduate institutional waivers to 3 percent of gross tuition. The approximate distribution of tuition waivers is 10 percent to undergraduates, 83 percent to graduate students, and 7 percent to students in professional programs. The University, as mandated by statute, provides reports of tuition waivers to the IBHE and legislative staffs.

In FY1996 undergraduate tuition and mandatory fees at the Chicago and Urbana campuses exceeded the maximum MAP (Monetary Award Program) award defined by the Illinois Student Assistance Commission (ISAC). To bridge this gap for MAP recipients, the University began supplementing MAP grants from University resources. In July of 2004 the Board adopted a set of guidelines and formulas for future funding of the MAP supplemental program. The amount of supplemental aid will increase proportional to the undergraduate revenue increases from tuition. For FY2006 the budget for this program is \$24.2 million (\$15.1 million at UIC, \$9.0 million at UIUC, and \$58 thousand at UIS).

- **Institutional Funds.** The supporting schedules display ICR, royalty, and administrative allowance budgets, excluding unspent FY2005 balances brought forward, as 'Institutional Funds'. The recommended ICR operating budget includes \$30.7 million carried forward from FY2005 and a \$187.5 million estimate of FY2006 ICR revenue. The recommended royalty operating budget includes \$3.6 million carried forward from FY2005 and a \$4.9 million estimate of FY2006 royalty revenue. The recommended administrative allowance operating budget includes \$58.5 million carried forward from FY2005 and a \$40.3 million estimate of FY2006 administrative allowance revenue.

Restricted Funds

- **Sponsored Programs.** These programs (primarily federally funded research grants) are expected to increase by 5.1 percent. This estimate reflects continued strong and successful competitive efforts by UI faculty to secure research support, even as federal funding for research is expected to remain flat in most areas.
- **Federal appropriations.** These funds are provided by the federal government for agriculture programs in the College of ACES. The \$16.7 million estimated federal appropriations budget is unchanged from FY2005.
- **Private gift and Endowment income.** Private gifts represent funds received from donors in support of the University's annual operating budget. Endowment income funds are allocations from investment income on University and University of Illinois Foundation endowments for use in the annual operating budget. The University's endowment pool budgeted spending program for FY2006 is 4.75 percent of the seven-year moving average of endowment market value. Incremental endowment and private giving revenue of \$7.9 million (6.9 percent) reflects increasing efforts to generate gift support.
- **University Hospital and Medical Service Plans.** Hospital and Medical Service Plans increases of 5.9 percent and 12 percent respectively, reflect improved patient volume in general, targeted increases in selected patient care areas, and improved reimbursement rates.

- **Auxiliaries and departmental operations.** These units generate revenue from the sale of products and services and retain the revenue they generate, per the state's Legislative Audit Guidelines. Revenue from these activities is expected to grow by \$19.5 million (4.4 percent) from FY2005.
- **State payments on behalf of the University.** These funds are appropriations to the State Universities Retirement System (SURS) and the Department of Central Management Services (CMS) to pay the employer's contribution to SURS and a portion of the cost of providing health insurance to employees paid from state and selected restricted funds. The estimated \$327.7 million FY2006 operating budget represents a \$19.3 million (5.6 percent) decrease from FY2005.

Campus General and the University Administration General Budgets

Supporting schedule D contains 'Campus General' budgets for each campus and 'General' budgets for University Administration. These budgets are for routine accounting transfers, as defined in the glossary. Authority for these transfers has been delegated by the Board to University administration. They include the following: (1) the ICR 'Earnings Contingency,' (2) budgets targeted for specific programs, and (3) a budget for recurring needs that will be utilized for different departments, programs, or projects from one year to the next.

If ICR earnings exceed the conservative initial estimates of colleges and departments, funds are transferred from the 'Earnings Contingency,' to individual departmental ICR account budgets, per the campus formula for earnings distributions. The University also transfers the funds targeted for specific programs, such as utility costs, from the general budgets as needed in the fiscal year.

The budgets for recurring needs that will differ by department, program, or project from one year to the next, such as costs related to enrollment growth or remodeling, will be transferred from the 'Campus General' and the University Administration 'General' budgets as needed during the fiscal year.

University Expense Budget FY2006

The University classifies its operating expenditures in object of expenditure categories. The State Finance Act defines object of expenditure categories as personal services, contractual services, commodities, equipment, travel, etc.

The following table compares the FY2005 and FY2006 unrestricted and restricted funds operating budget by object of expenditure category. All amounts are in thousands.

**BOARD OF TRUSTEES
BUDGETARY OVERSIGHT
AND ACCOUNTABILITY**

Board of Trustees Budgetary Oversight and Accountability

The Board of Trustees exercises its stewardship and fiduciary responsibilities by (1) approving the University's annual operating budget including specified changes to the budget, (2) establishing policies of the delegation of administrative authority for approving and, where applicable, reporting specified budget transactions (such policies shall ensure appropriate balance between the need for Board of Trustees oversight while facilitating the effective and efficient operation of the University), and (3) establishing an organization structure and management team for University operations to ensure the approval and reporting of specified budget transactions in accordance with board policies. The following specifies the Board of Trustees requirement for prior board approval of specified budgetary transactions, the delegation of authority for specified budgetary transactions, and the required board reporting of budgetary activities.

Prior Board of Trustees approval is required to authorize:

- ✓ The transfer of any unrestricted funding from the Personal Services and Benefits object of expenditure to any other object of expenditure.
- ✓ The transfer of any unrestricted funding from an object of expenditure that will cause the total transfers to exceed two percent of the total unrestricted funds budget.
- ✓ Individual unrestricted programmatic budget adjustments greater than \$2.0 million, exclusive of routine accounting transactions as defined in the glossary.
- ✓ The allocation or expenditure of a supplemental state appropriation, additional University Income Fund revenue, and additional Institutional Fund revenue.

The Board of Trustees delegates to the President authority for:

- ✓ The transfer of any unrestricted funding from an object of expenditure, not including Personal Services and Benefits object of expenditure, that will not cause the total transfers to exceed two percent of the total unrestricted funds budget.
- ✓ An individual programmatic budget adjustment up to \$2.0 million in accordance with the University's needs, the policies and institutional priorities established by the Board of Trustees, and within total income as it accrues, exclusive of routine accounting transactions as defined in the glossary. Individual programmatic budget adjustments greater than \$1.0 million and less than \$2.0 million, exclusive of routine accounting transactions will be included in quarterly reports to the Board of Trustees.
- ✓ The reduction of departmental allocations necessitated by a decrease in the state appropriation, University Income Fund revenue, or Institutional Fund revenue.

- ✓ The acceptance of restricted fund revenue. The board recognizes that restricted funds revenue and the object of expenditure categories of such revenue may vary from the estimated restricted funds operating budget approved by the board. Consequently, the board authorizes departmental restricted fund budgets and expenditures for the restricted purposes of the funds within the total income as it accrues. The board also delegates authority to the president to oversee restricted funds revenue for the restricted purpose and to allocate such restricted funds as the revenue accrues.

The Board of Trustees requires quarterly reporting as follows:

- ✓ Comparison of unrestricted fund budgets and projected expenditures by object of expenditure category.
- ✓ Unrestricted fund expenditures by campus and object of expenditure category.
- ✓ Restricted fund expenditures by campus and object of expenditure category.
- ✓ Comparison of University Income Fund revenue to budget.
- ✓ Comparison of ICR fund budget and projected expenditures.
- ✓ Comparison of ICR fund revenue to budget.
- ✓ Report of programmatic budget transfers, exclusive of routine accounting transactions, in excess of \$1.0 million but not greater than \$2.0 million.

GLOSSARY OF TERMS

GLOSSARY OF TERMS

EXPENDITURE FUNCTIONAL CLASSIFICATIONS

Academic Support

Expenditures to provide support services for the institution's primary missions--instruction, research, and public service. It includes libraries, museums, educational media services, academic computing support, academic administration, academic personnel development, and course and curriculum development.

Auxiliary Enterprises

Expenditures for self supporting operations which are not directly related to instruction, research, or public service units but which exist to furnish goods or services to students, faculty, and staff. Examples include food service, residence halls, bookstores, and student unions.

Hospital

Expenditures associated with the patient care operations of the hospital. It includes direct patient care, health care supportive services, and administration of the hospital.

Independent Operations

Expenditures of operations which are independent of, or unrelated to, but which may enhance the primary missions of the institution. It includes commercial operations such as Willard Airport at Urbana-Champaign and the steam plant in Chicago.

Institutional Support

Expenditures for central executive-level activities concerned with management and long-range planning of the entire institution; fiscal operations including the investment office; administrative data processing; space management; employee personnel and records; logistical activities that provide procurement, storerooms, safety, security, printing, and transportation services to the institution; support services to faculty and staff that are not operated as auxiliary enterprises; and activities concerned with community and alumni relations including development and fund raising.

Instruction

Expenditures for all activities that are part of an institution's instruction program. It includes credit and noncredit courses for academic, vocational and technical instruction, and remedial and tutorial instruction.

Operation and Maintenance of Plant

Expenditures of current operating funds for the operation and maintenance of physical plant. It includes physical plant administration, building maintenance, utilities, and custodial services.

Public Service

Expenditures for activities that are established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. It includes such services as cooperative extension service, community service, and public broadcasting services.

Research

Expenditures for activities specifically organized to produce research outcomes whether commissioned by an agency external to the institution or separately budgeted by an organizational unit within the institution. It includes institutes and research centers and individual and project research.

Scholarships and Fellowships

Expenditures for scholarships and fellowships in the form of outright grants to students selected by the institution and financed from current funds, restricted or unrestricted including trainee stipends and awards. (Budget excludes the value of tuition and fee waivers granted staff and graduate assistants.)

Student Services

Expenditures for offices of admission and registrar and those activities which have the primary purpose of contributing to the student's emotional and physical well-being and to his or her intellectual, cultural, and social development outside the context of the formal instruction program. It includes student services administration, social and cultural development, counseling and career guidance, financial aid administration, and student admissions and records.

FUND GROUPS

State

Expenditures which have a source of funds of state appropriations or University Income Fund (primarily tuition).

Non-State Funds

Institutional

Expenditures which have a source of funds of institutional costs recovered from grants and contracts, private unrestricted gifts, and educational and administrative allowances.

Restricted

Expenditures which have a source of funds of U.S. Government, State of Illinois, and private grants and contracts as well as endowment income, private gifts, work study program, medical service plan, dental service plan, and federal appropriations.

Auxiliary Enterprises

Expenditures for self supporting operations which are not directly related to instruction, research, or public service units but which furnish goods or services to students, faculty, and staff. Examples include food service, residence halls, bookstores, and student unions.

Departmental Activities

Expenditures for operations which are self supporting in whole or part that are directly related to the institution's primary missions -- instruction, research, and service.

ACCOUNTING TRANSACTIONS: BUDGET TRANSFERS

Routine accounting transactions are budget transfers that do not alter the intent of the budget as approved by the Board of Trustees. Routine accounting transactions include the following:

- A. Collaborative programs (i.e., inter-departmental cost sharing) – Departments collaborate on many instructional and research programs. Budget is transferred as units pay for their share of costs.
- B. Funds budgeted in the 'Campus General' and the University Administration 'General' accounts for known categories of recurring costs that will be spent in different departments, programs, or projects from one year to the next. These funds are transferred from the 'Campus General' and the University Administration 'General' accounts to the department, program, or project where the funds are needed in the fiscal year. The 'Campus General' and the University Administration 'General' accounts provide funding for the following categories of recurring costs.
 1. Facilities (i.e., land/property acquisition, infrastructure, leaseholds, debt service, deferred maintenance, repair & renovation, remodeling)
 2. Insurance (i.e., board legal, property/crime public liability)
 3. Sick Leave (i.e., termination benefit funds)

4. Research Board support – funding to faculty for seed money for research projects
 5. Special Appropriations
 6. Summer Session Support (i.e., summer session costs)
 7. Health & Safety (i.e., security, hazardous waste handling)
 8. Professional programs (i.e., earned tuition – Vet Med., Law, MBA, Commerce International)
 9. New program funds that were targeted during the budget process for a specific program or department but were not allocated until after the presentation of the Budget Summary for Operations to the Board of Trustees. These funds are shown in the Budget Summary for Operations in a holding account.
 10. Student support (e.g., commencement costs, President's awards)
- C. ICR Earnings Distribution - Overhead units (O&M, Library, VCR and others) receive ICR allocations as a part of the budget process. The college and department share of ICR is transferred to units as they earn it throughout the year.
 - D. Grants & Contract awards or gifts to the University.
 - E. Exchange of funds – a college requests an object of expenditure exchange (e.g., expense funds in exchange for equipment funds) or ICR funds in exchange for State funds. Exchanges have no net impact upon a unit's budget.
 - F. Faculty support – recruitment/retention, minority faculty support, awards (e.g., start-up costs, named professorships, matching research costs, University Scholars, teaching awards).
 - G. Technology Support
 - H. Transfers within a college. Larger colleges generally distribute some centrally held funds during the year. For example, a college might distribute teaching assistant support funds based on the instructional load of departments.
 - I. Transfers within a restricted fund.
