JMLS FAQ Items

1. **Why did I have money deducted from my pay that is listed as “IL State Offset” on my earnings statement?**

   When you became an employee of UIC, you became an employee of the State of Illinois. If you have any debts being held with the Illinois State Comptroller’s Office, those debts will be collected from any funds issued to you by a state agency such as a refund of state income taxes, Illinois Lottery winnings and your pay issued by the University of Illinois System. The Comptroller’s office maintains records of all such debts in an electronic file and all state agencies are required to match the individuals on this file to their employee records. If a match is found, University Payroll & Benefits activates the deduction code and 25% of disposable pay (gross pay minus legally required deductions) is automatically deducted from your pay. This deduction will be listed on your earnings statement as ‘IL State Offset - Accts R’ or ‘IL State Offset - Lump/Term’. These deductions are mandated by State Comptroller Act [15 ILCS 405/10.05 and 405/1005a] and Illinois Administrative Code 285.1104. University Payroll & Benefits does not have additional information about the original debt. For information regarding the debt, you must contact the Illinois State Comptroller's Office at 217-785-2463 or 217-782-7525. Examples include: Child Support, Unpaid Parking/Toll fines, CMS State Plan insurance premiums

2. **When will I get paid?**

   In short, monthly paid employees are paid on or before the 16th of the month and bi-weekly employees are paid every other Wednesday.
   https://www.obfs.uillinois.edu/payroll/schedules/

3. **As a bi-weekly employee I will receive 3 checks this month. Will all the normal deductions be taken from the 3rd check?**

   Since our benefits are calculated over 12 months, we divide voluntary deductions by 24 pays. In some months (usually twice per year) there are 3 bi-weekly pays. It is on these pays that there are no voluntary deductions taken with the exception of the 403b plans. The voluntary deductions excluded from the 3rd bi-weekly pay include Insurance Premiums, Long Term Disability and the 457 Deferred Compensation.
4. **What is meant by “statutory deductions” and which deductions does this apply to?**

Statutory deductions are required by either Federal or State statute. These include federal or state income tax (Form W-4), State Universities Retirement System (SURS) or Social Security and Medicare. Employees eligible for SURS are not subject to the Old-Age, Survivors and Disability (OASDI) portion of Social Security. You will continue to contribute to Medicare at the tax rate of 1.45%. Participation begins on their first day of their SURS eligible job and requires a mandatory contribution to the retirement plan.
