Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the University of Illinois. We are responsible for and we have established and maintained an effective system of internal controls over compliance requirements. We have performed an evaluation of the University of Illinois' compliance with the following assertions during the year ended June 30, 2019. Based on this evaluation, we assert that during the year ended June 30, 2019, the University of Illinois has materially complied with the specified requirements listed below.

- A. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The University of Illinois has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University of Illinois are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University of Illinois on behalf of the State or held in trust by the University of Illinois have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Yours truly,

University of Illinois

SUMMARY

EXIT CONFERENCE

The University waived the exit conference for the Federal Compliance OMB Uniform Guidance audit and the State Compliance examination in an email dated February 3, 2020, from Ginger Velazquez, Interim Assistant Vice President for Business and Finance of the Office of the Business and Financial Services. Responses to the findings were provided by Jennifer Erickson, Associate Director for Business and Finance in emails dated February 6, 2020 and February 7, 2020.

**INDEPENDENT ACCOUNTANTS' REPORT
ON STATE COMPLIANCE AND ON INTERNAL CONTROL OVER COMPLIANCE
FOR STATE COMPLIANCE PURPOSES**

Honorable Frank J. Mautino
Auditor General, State of Illinois
and
Board of Trustees
University of Illinois

Compliance

As Special Assistant Auditors for the Auditor General, we have examined compliance by the University of Illinois with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during the year ended June 30, 2019. Management of the University of Illinois is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the University of Illinois' compliance with the specified requirements based on our examination.

The specified requirements are:

- A. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University of Illinois has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions, or mandatory directions imposed by law upon such obligation, expenditure, receipt, or use.
- C. The University of Illinois has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University of Illinois are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate, and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University of Illinois on behalf of the State or held in trust by the University of Illinois have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the University of Illinois complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the University of Illinois complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the University of Illinois' compliance with the specified requirements.

In our opinion, the University of Illinois complied with the specified requirements during the year ended June 30, 2019, in all material respects. However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings and Questioned Costs as items 2019-001, 2019-002, and 2019-007 through 2019-012.

The University of Illinois' responses to the compliance findings identified in our examination are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the procedures applied in the examination and, accordingly, we express no opinion on them.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Internal Control Over Compliance

Management of the University of Illinois is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control).

In planning and performing our examination, we considered the University of Illinois' internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the University of Illinois' compliance with the specified requirements and to test and report on the University of Illinois' internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the University of Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our examination, we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as item 2019-001, 2019-002, and 2019-007 through 2019-012, that we consider to be significant deficiencies.

As required by the Audit Guide, immaterial findings excluded from this report have been reported in a separate letter.

The University of Illinois' responses to the internal control findings identified in our examination are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the procedures applied in the examination and, accordingly, we express no opinion on them.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Honorable Frank J. Mautino
Auditor General, State of Illinois
and
Board of Trustees
University of Illinois

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate discretely presented component units of the University of Illinois, collectively a component unit of the State of Illinois, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the University of Illinois' basic financial statements, and have issued our report thereon dated December 19, 2019. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the University of Illinois Foundation; University of Illinois Alumni Alliance; Wolcott, Wood, and Taylor, Inc.; Prairieland Energy, Inc.; Illinois Ventures, LLC; the University Research Park, LLC; and UI Singapore Research, LLC, component units of the University, were not audited in accordance with *Government Auditing Standards* and, accordingly, this report does not include reporting on internal control or compliance and other matters associated with these component units.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University of Illinois' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

Management of the University of Illinois is responsible for establishing and maintaining effective internal control over financial reporting (internal control).

In planning and performing our audit of the financial statements, we considered the University of Illinois' internal control to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Illinois' internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as items 2019-001 and 2019-002 that we consider to be significant deficiencies.

University of Illinois' Responses to Findings

The University of Illinois' responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University of Illinois' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University of Illinois' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM, ON INTERNAL CONTROL OVER COMPLIANCE, AND
ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE**

Honorable Frank J. Mautino
Auditor General, State of Illinois
and
Board of Trustees
University of Illinois

Report on Compliance for Each Major Federal Program

As Special Assistant Auditors for the Auditor General, we have audited compliance by the University of Illinois' with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University of Illinois' major federal programs for the year ended June 30, 2019. The University of Illinois' major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs.

The schedule of expenditures of federal awards and our audit described below does not include expenditures of federal awards for those agencies determined to be component units of the University of Illinois for financial statement purposes.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University of Illinois' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about University of Illinois' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University of Illinois' compliance.

Opinion on Each Major Federal Program

In our opinion, the University of Illinois complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2019-003 through 2019-006. Our opinion on each major federal program is not modified with respect to these matters.

The University of Illinois' responses to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the University of Illinois' is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University of Illinois' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Illinois' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying Schedule of Findings and Questioned Costs as items 2019-003 through 2019-006 that we consider to be significant deficiencies.

The University of Illinois' responses to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. The University of Illinois' responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of, the business-type activities, the aggregate discretely presented component units of the University of Illinois, a component unit of the State of Illinois, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the University of Illinois' basic financial statements. We issued our report thereon dated December 19, 2019, which contained unmodified opinions on those financial statements. Our report was modified to include a reference to other auditors. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS - GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2019**

2019-001. Finding: Inadequate Procedures over Expense Deferrals and Other Cut-off Related Issues

The University of Illinois (the University) has not established adequate internal controls over accurately identifying and recording deferred expense transactions and reporting prepaid expenses at fiscal year-end for financial reporting purposes.

During our audit, we noted that the University's procedures to identify and record prepaid expenses include a review of all cash disbursements by University Payables (UPAY). UPAY identifies expense transactions that pertain to multiple fiscal years and codes them for further review by University Accounting and Financial Reporting (UAFR). UAFR will then post year-end journal entries to appropriately defer the identified expense transactions. In addition to the review of all cash disbursements by UPAY, UAFR also requires individual units to identify and report known accrual and deferral transactions at fiscal year-end for certain fund types. We also noted that the University's year-end accounts payable procedures include specifically reviewing cash disbursements made subsequent to year-end through the end of October to determine which accounting period the related expense transactions pertain.

In relation to our test work over expense transactions, we reviewed 225 cash disbursement transactions (totaling \$30,122,686), 60 P-Card expense transactions (totaling \$368,921), and 60 T-Card expense transactions (totaling \$234,802) recorded during the fiscal year. In relation to our test work over revenue transactions, we reviewed 60 cash receipt transactions recorded during the fiscal year (totaling \$52,459,178). We also reviewed 18 cash disbursements occurring subsequent to year-end (totaling \$67,263,877). Additionally, we separately reviewed 14 internal journal voucher transactions recorded during the fiscal year (totaling \$1,054,912).

During our review of these transactions, we noted the following items were not recorded in the proper accounting period:

University of Illinois transactions

- Three general and service expense cash disbursements (totaling \$208,425) that were recorded as expenses for fiscal year ended June 30, 2019, should have been fully accrued as of June 30, 2018;
- One travel expense cash disbursement (totaling \$6,821) that was recorded as expense for fiscal year ended June 30, 2019, should have been fully accrued as of June 30, 2017;
- One telecommunication expense (totaling \$33,625) that was recorded as expense for fiscal year ended June 30, 2019, should have been partially deferred as of June 30, 2019 at an amount of \$30,614, and then recognized as expenses for the fiscal year ended June 30, 2020;
- One printing expense (totaling \$2,900) that was recorded as expense for fiscal year ended June 30, 2019, should have been fully deferred as of June 30, 2019; and
- One cash receipt (totaling \$5,685) that was recorded as operating revenue for the fiscal year ended June 30, 2019, should have been fully accrued as of June 30, 2018.

University of Illinois P-card transactions

- Three general expenses (totaling \$11,836) that were recorded as expenses for fiscal year ended June 30, 2019, should have been fully accrued as of June 30, 2018; and
- Three general expenses (totaling \$31,480) that were recorded as an expense for fiscal year ended June 30, 2019, should have been partially deferred as of June 30, 2019 at an amount of \$8,487, and then recognized as expenses for the fiscal year ended June 30, 2020.

University of Illinois T-card transactions

- One general cash disbursement (totaling \$3,459) that was recorded as expense for fiscal year ended June 30, 2019, should have been fully accrued as of June 30, 2018.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS - GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2019**

Generally accepted accounting principles require transactions to be reported in the period they are incurred. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001), requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, which shall provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources. The University's system of internal controls should include procedures to ensure expenses and revenues are recognized in the appropriate reporting period.

In discussing these conditions with University personnel, they stated that in many of these instances, the units associated with the exceptions did not adequately follow established procedures to record the transactions in the proper period.

Failure to accurately analyze and record cash receipts and disbursements within the proper fiscal year may result in the misstatement of the University's financial statements. (Finding Code No. 2019-001, 2018-001, 2017-001, 2016-001, 2015-001, 2014-001, 2013-001, 12-01, 11-01, 10-03, 09-03)

Recommendation:

We recommend the University continue to review its process to assess the existence of current period revenues and expenses and consider changes necessary to ensure they are accurately identified and recorded for presentation in the University's financial statements.

University Response:

Accepted. The University will continue taking corrective action to address the recommendation in this finding.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS - GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2019**

2019-002. Finding: Inadequate Controls over University Procurement Card Transactions

The University of Illinois (the University) has not complied with University policies and internal controls over procurement card transactions.

The University operates a procurement card program which allows individuals throughout the University to make smaller purchases (defined as less than \$4,999) on a credit card which is directly paid by the University on a monthly basis. The University's policies require employees assigned a procurement card to complete training on policies and procedures, pass a test, and sign an agreement stipulating they will use the card in accordance with University policy. This agreement is also required to be authorized by the individual's supervisor or the department head. The University's policies require transactions incurred on the procurement card to be assigned a reviewer.

During our test work over 63 procurement card transactions totaling \$374,743, we noted the following:

- Five (8%) transactions (totaling \$9,756) were for charges such as transportation, prepaid tolls, business meals and refreshments, all of which were prohibited by the University's procurement card policies.
- One (2%) transaction (totaling \$5,806) was paid in two or more installments, circumventing the card holder's single transaction limit of \$4,999.
- Twelve (19%) transactions (totaling \$70,720) were not reconciled within seven days of appearance on the P-Card software, as required. The reconciliations were completed two to 51 days late.

The University has approximately 4,668 active procurement cards, and the procurement card expenditures paid for the year ended June 30, 2019 totaled \$59,168,533.

The University policy states that the reconciler must review and reconcile each transaction with the Order Log and with the original, detailed, itemized receipt within seven business days of its appearance in the P-Card software, in order for the transaction to post in Banner for financial reporting.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure procurement card transactions are in accordance with University policies and procedures.

University management indicated the bulleted exceptions largely resulted from human error at the individual and/or unit level by not following procurement card policies and procedures.

Failure to properly review and approve procurement card transactions in accordance with University policies could result in erroneous or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2019-002, 2018-003, 2017-004, 2016-002, 2015-002, 2014-002, 2013-002, 12-02, 11-03, 10-02, 09-02, 08-03)

Recommendation:

We recommend the University continue to review and improve its internal controls over procurement card transactions to ensure compliance with University policies so that erroneous or fraudulent transactions are not recorded in the general ledger system.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS - *GOVERNMENT AUDITING STANDARDS*
For the Year Ended June 30, 2019**

University Response:

Accepted. While the procurement card is an efficient purchasing mechanism, the University recognizes the importance of procurement card process controls, training, and transaction monitoring. The University will implement the necessary corrective action related to the recommendation made in this finding.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2019**

Federal Agency: US Department of Education (USDE)

Program Name: Student Financial Assistance Cluster

CFDA # and Program Expenditures: 84.007/84.033/84.038/84.063/84.268/84.379/
93.264/93.342/93.364 (\$607,601,754)

Award Numbers: See Table of Award Numbers

Questioned Costs: \$103,224

Finding 2019-003 – Failure to Meet Community Service Requirement

The University did not use at least 7% of its Federal Work Study (FWS) funds for students employed in community service activities.

At the University of Illinois at Chicago, we noted the federal share of FWS funds used for community service totaled \$96,505, from a statistically valid sample. The total amount of federal funds spent on FWS funds totaled \$2,824,193. The University is reporting at 3.4% of community service used for FWS funds out of the minimum 7% requirement. The University should have used at least 7%, or \$197,694, of its FWS funds towards community service or obtained a waiver from the US Department of Education.

At the University of Illinois at Springfield, we noted the federal share of FWS funds used for community service totaled \$15,227, from a statistically valid sample. The total amount of federal funds spent on FWS funds totaled \$246,595. The University is reporting at 6.2% of community service used for FWS funds out of the minimum 7% requirement. The University should have used at least 7%, or \$17,262, of its FWS funds towards community service or obtained a waiver from the US Department of Education.

The Code of Federal Regulations (34 CFR 675.18(g)) requires for the 2000-2001 award year and subsequent award years, an institution must use at least 7% of the sum of its initial and supplemental FWS allocations for an award year to compensate students employed in community service activities.

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure FWS funds are used according to federal guidelines or to ensure waivers are obtained.

According to University officials, the University of Illinois at Chicago was unable to adequately replace the loss of their largest community service contractor.

According to University officials, the University of Illinois at Springfield had students who left their community service positions before the end of the academic year. The University attempted to find replacements, but due to the lateness of the departures they were unable to replace the students.

If the University fails to meet any of the FWS community service requirements, then they will be required to return FWS federal funds in an amount equal to the difference between the amount a school should have spent for community service and the amount it actually spent. The University could also be denied future participation in the FWS Program and possibly other FWS programs and/or subject to a substantial fine. (Finding Code No. 2019-003, 2018-005, 2017-010)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2019**

Recommendation:

We recommend the University review current processes for calculating and tracking the students employed in community service activities for its FWS funds to meet the minimum 7% requirement.

University Response:

Accepted. The University of Illinois at Chicago will continue to increase their contract provider list for the 2019-2020 academic year. The University of Illinois at Springfield is working to recruit more students for these positions and find providers closer to campus for the 2019-2020 academic year.

Finding 2019-004 – Inadequate Procedures for Reporting and Closing out Federal Projects

The University does not have adequate procedures in place to ensure federal projects are closed in a timely manner and did not ensure the expenditures reported on the Schedule of Expenditures of Federal Awards contained the proper award information.

The University administers thousands of individual federal projects from several federal agencies and pass-through entities which have varying project periods and information is required to be reported accurately. The University has formally documented policies and procedures for closing out federally funded projects which generally require projects to be closed within 90 days after the project end date. Procedures have been established to send a notice of terminating accounts to the principal investigator or program coordinator 90 days prior to the project end date. The notice provides information about the process for closing projects and includes an information request for any extensions granted and other project information necessary to complete the project close out. Personnel in the Grants and Contracts Office are responsible for ensuring the University has met its obligations under the project, closing the general ledger accounts, and returning any unexpended grant funds to the federal agency or pass-through entity.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2019**

During our review of the University's Schedule of Expenditures of Federal Awards for the year ended June 30, 2019, we noted expenditures (or negative expenditures) were reported for several projects with end dates of greater than the 90 day close out period. Specifically, we noted the following:

Year Ended	Number of projects with end date during fiscal year	Year ended June 30, 2019		
		Number of expenditures	Dollar amount of positive costs	Dollar amount of negative costs
6/30/2003	1	3	-	(1,500)
6/30/2007	1	90	-	(76,963)
6/30/2012	1	9	102,487	-
6/30/2013	2	9	-	(190)
6/30/2015	3	27	-	(42,711)
6/30/2016	6	10	-	(11,700)
6/30/2017	21	424	100,509	(267,760)
6/30/2018	141	3,317	179,951	(696,112)
Total	176	3,889	382,947	(1,096,936)

Upon review of the transactions recorded in the projects above, we noted transactions included a number of transfer expenditures and corrections. Periodic financial reports previously submitted for several of the University's federally funded projects inaccurately included or excluded project expenditures which have later been revised, if applicable. Difficulties in collecting delinquent Accounts Receivable balances or completion of project deliverables can contribute to late award closeout. Additionally, some awards may remain open more than 90 days after the end date as the University awaits continuation paperwork for incrementally funded awards.

During the current year testing, 8 additional transactions were noted, including 2 in Research and Development (R&D), 5 in Cooperative Extension Services (CES), and 1 in Child Care Development Funds (CCDF), which had charges to the grants after the 90 day close out period during fiscal year 2019.

In addition, the University utilizes an accounting system to track and maintain the official financial records of the University. As Federal awards are granted to the University, individuals from the University's post-award office enter the award details into the accounting system. During our review of 16 Cooperative Extension Service Cluster grant awards, we noted the award information contained in the University's accounting system did not agree to the award documents for 2 awards selected for testing. More specifically, we noted there was a change to the Catalog of Federal Domestic Assistance (CFDA) numbers within the Cooperative Extension Services program. The University has updated their Schedule of Expenditures of Federal Awards to properly reflect the CFDA numbers.

Uniform Grant Guidance requires accurate, current and complete disclosure of the financial results of each federally sponsored project or program in accordance with the applicable reporting criteria. Under Uniform Grant Guidance (2 CFR 200 Section 200.343(a)) the non-Federal entity must submit, no later than 90 calendar days after the end of the period of performance, all financial, performance and other reports as required by the terms and conditions of the Federal award. The Federal awarding agency or pass-through entity may approve extensions when requested by the non-Federal entity.

Under Uniform Grant Guidance (2 CFR 200 Section 200.510(b)(3)) the auditee must prepare a Schedule of Expenditures of Federal Awards that includes the total Federal awards expended for each individual Federal program and the CFDA number or other identifying number when the CFDA information is not available.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2019**

Uniform Grant Guidance (2 CFR 200 Section 200.303) also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures are allowable in accordance with federal regulations and are properly reported.

According to University officials, transactions post after the award end date for various reasons. At times, situations occur, beyond the University's control. Additionally, staffing shortages, as well as the coordination and necessary participation from multiple University units contribute to the late posting of transactions. Failure to provide notification of award documents caused the reporting of incorrect CFDA numbers.

Failure to close projects and process necessary cost transfers in a timely manner may result in inaccurate periodic financial reports and unallowable costs. Also, failure to adequately record grant awards may result in inaccurate reporting on the Schedule of Expenditures of Federal Awards. (Finding Code No. 2019-004, 2018-006, 2017-007, 2016-005, 2015-005, 2014-005, 2013-005, 12-04, 11-07, 10-11, 09-13)

Recommendation:

We recommend the University review its current close out procedures and implement additional procedures to monitor the timeliness of federal account close outs. Also, we recommend the University implement procedures to ensure that the award information per the award documents received by the federal agency agrees to the award information entered in the University's accounting system and any updates from the federal agency are properly documented.

University Response:

Accepted. The University continues to devote additional attention to close-out review and processing to improve the timeliness of project closeout. The University implemented dedicated close-out days to allow staff to focus on closing projects. In fact, the number of late closeouts has declined by 32% from the prior year. Upon further analysis of the transactions noted in the grid, 1421 are primary/direct expense transactions, while the remaining transactions are the associated fringe benefit and facilities and administrative assessments. The post-award offices are in conversation with other key University units to assist in identifying and preventing targeted late expenditure transactions.

In relation to the incorrect CFDA numbers, the University of Illinois at Urbana-Champaign will ensure central grant management and departmental staff understand the importance of timely communication of CFDA notification and updates on all awards.

Questioned Costs: \$15

Finding 2019-005 – Inadequate Procedures for Correctly Calculating Co-Payments

The University did not have proper procedures in place to correctly calculate co-payments for the State's Child Care Assistance Program at the Illinois Child Care Resource Services (CCRS).

In relation to the Temporary Assistance for Needy Families Grant, CCRS is located at the University of Illinois at Champaign within the Department of Human Development and Family Studies, designated to verify eligibility for participants receiving aid under the Child Care Resource Services program. The Illinois Department of Human Services (IDHS) is responsible for setting the eligibility requirements, determining payment rates, and accrediting providers under TANF federal regulations 45 CFR 260.31 (TANF federal regulations). CCRS is responsible for the data entry process into the IDHS system, verifying eligibility per IDHS guidelines, calculating copay using IDHS spreadsheets, and retaining documentation and client files.

During our testing of 60 beneficiary payments, from a statistically valid sample, disbursements totaling \$18,381 for TANF, we noted one beneficiary payment totaling \$310 where CCRS did not calculate the monthly income correctly. The income per the parent co-payment calculation worksheet, which is used to determine monthly income, was improperly calculated based on TANF federal regulations. Although the error was not discovered, the participant was eligible under the program and the co-payment was not affected by the error.

In relation to the Child Care Development Funds Grant, CCRS is the department for the University of Illinois at Champaign designated to receive and administer funds and aid under the Child Care Assistance Program to assist parents with child care need under CCDF federal regulations 45 CFR 98.16 (CCDF federal regulations). During our testing for 60 beneficiary payments, from a statistically valid sample, disbursements totaling \$16,389 under the Child Care Assistance Program, we noted three beneficiary files with payments totaling \$414 with incorrect or incomplete information related to co-payments.

- In two cases, the income per the parent co-payment calculation worksheet was improper based on CCDF federal regulation. The improper calculation, therefore, resulted in assessing the wrong co-payment amount for one applicant. For both applicants, child support paid was not subtracted from the monthly gross income. Per the Illinois Administrative Code (Code) (89 Ill. Admin. Code 50.235), CCRS should reduce gross income by the child support paid out of a family's income. Although both applicants were eligible for the program, one applicant was overcharged a co-pay, for a total of \$15 and all errors were not caught in review.
- In another additional case, the income per the parent co-payment calculation worksheet was improper based on CCDF federal regulations. CCRS included inconsistent income in the gross wage calculation. Per the (Code) (89 Ill. Admin. Code 50.235), CCRS should exclude non-recurrent or inconsistent income that is not part of the family's base income. Although the error was not discovered, the participant was eligible under the program and the co-payment was not affected by the error.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2019**

The (Code) (89 Ill. Admin. Code, 50.230; 50.235) states a family is considered income eligible when the combined gross monthly base income (earned and unearned) of all family members is at or below the amounts of income for the corresponding family size.

The (Code) (89 Ill. Admin. Code, 50.235) states non-recurrent or inconsistent pay for overtime, incentives, bonuses, sick, vacation, travel reimbursements or other types of non-recurrent or inconsistent income should be excluded from the family's base income.

The (Code) (89 Ill. Admin. Code, 50.235) states child support paid out of the family's income is exempt income.

The Illinois Department of Human Services Monthly Income Guidelines has a 185% threshold of the Federal Poverty Guidelines published yearly by the U.S. Health & Human Services (89 Ill. Admin. Code, 50.230).

Uniform Grant Guidance (2 CFR 300.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure the co-payments are properly calculated and documentation is maintained to support the determination.

According to University officials, correct income amounts were not used to determine copayment calculations due to human error.

Without effective internal controls over compliance, CCRS could allow an individual to receive financial support for applicants that are financially ineligible. Also, inaccurate calculation worksheets can lead to applicants not paying the correct amount of co-payments based on federal regulations. (Finding Code No. 2019-005, 2018-007, 2017-008, 2016-006, 2015-010)

Recommendation:

We recommend the University review its procedures to ensure the correct participant information is used to calculate co-payments under the TANF and CCDF programs.

University Response:

Accepted. The University will continue to improve procedures for verifying participant eligibility. The additional staff hired to review the participant eligibility calculation prior to submission to IDHS will continue to participate in ongoing training and provide support to the process.

Finding 2019-006 – Inadequate Review and Application of Indirect Costs Rate

The University did not have proper review and apply indirect cost rates for the Research and Development Cluster and Cooperative Extension Services Cluster program awards.

During our testing we noted 1 out of 40 (3%) indirect cost transactions related to 1 award, from a statistically valid sample, charged to the Research and Development Cluster was not adequately executed or reviewed using the correct rate stated in the award agreement. Specifically, the University used a rate of 25.4% instead of the agreed upon rate of 31.9% which resulted in an under application of the allowed amount of indirect costs totaling \$287.

During our testing we noted 3 out of 24 (13%) indirect cost transactions related to 1 award, from a statistically valid sample, charged to the Cooperative Extension Services Cluster were not adequately executed or reviewed using the correct rate stated in the award agreement. Specifically, the University used a rate of 25.4% instead of the agreed upon rate of 31.9% which resulted in an under application of the allowed amount of indirect costs totaling \$177.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – FEDERAL COMPLIANCE
Year Ended June 30, 2019**

Uniform Grant Guidance (2 CFR 200.303) requires nonfederal entities receiving Federal awards establish and maintain internal controls designed to reasonably ensure compliance with Federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure proper indirect cost rates are entered into the accounting system.

Uniform Grant Guidance (2 CFR 200.405(b)) requires all activities which benefit from the non-Federal entity's indirect (F&A) cost, including unallowable activities and donated services by the non-Federal entity or third parties to receive an appropriate allocation of indirect costs.

According to University officials, the indirect cost rate for the Research and Development and Cooperative Extension Service Clusters was reduced from 31.9% to 25.4%, therefore causing F&A to be under assessed. These reductions were due to human error.

Failure to utilize the approved indirect cost rate could result in requesting and receiving funds in excess of amounts permitted which are unallowable costs. (Finding Code No. 2019-006)

Recommendation:

We recommend the University review its procedures relative to entering and reviewing indirect costs rates before entering them into its information systems to ensure the appropriate rates are used to calculate indirect costs charged to its federal programs.

University Response:

Accepted. The University believes a unique situation and human error caused the noted exceptions. In both cases, a lower indirect cost rate was assessed which caused no harm to the sponsor. The University will emphasize the importance of correct indirect cost rate entry.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

2019-007. Finding: Failure to Maintain Adequate Records Substantiating Written Notices

The University of Illinois Hospital (University) was unable to provide adequate records substantiating written notices were provided to patients within 24 hours after their admittance into the University Hospital indicating the patients were under observation status in accordance with the University of Illinois Hospital Act (Act) and University policies and procedures.

The University's Patient Admissions Policy and Procedure (Policy) requires the University to issue Notice of Observation Status (Form UI-5010) to patients after their admittance into the University Hospital notifying they have been placed under outpatient observation status and have not been admitted as an inpatient. In addition, the University requires patients or their legal representative to sign the Form UI-5010 to acknowledge the receipt and understanding of their outpatient observation status.

During testing, we requested Form UI-5010s for 25 patients selected to test the University's compliance with the Act and the Policy. The University was unable to provide Form UI-5010s for 8 (32%) patients. As a result, we were unable to determine the University's compliance with the Act and the Policy.

The Act (110 ILCS 330/8a) states, "within 24 hours after a patient's placement into observation status, the University of Illinois Hospital shall provide that patient with an oral and written notice that the patient is not admitted to the hospital and is under observation status. The written notice shall be signed by the patient or the patient's legal representative to acknowledge receipt of the written notice and shall include, but not be limited to, the following information: (1) a statement that observation status may affect coverage under the federal Medicare program, the medical assistance program under Article V of the Illinois Public Aid Code, or the patient's insurance policy for the current hospital services, including medications and other pharmaceutical supplies, as well as coverage for any subsequent discharge to a skilled nursing facility or for home and community based care; and (2) a statement that the patient should contact his or her insurance provider to better understand the implications of being placed into observation status."

In addition, the University's Patient Admissions Policy and Procedure requires the Notice of Observation Status form be presented to patients under observation status for their signatures.

Furthermore, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls. Effective internal controls should include procedures to ensure supporting documentation for each patient placed under observation status is maintained.

University officials stated the process involving level of care assignment is complex and involves many areas and clinicians within the health system through the use of various systems and technology. The University of Illinois Hospital ("Hospital") has identified ongoing process opportunities in the workflow of level of care assignment and changes between outpatient, inpatient and observation status that occur during the course of patient encounter. While these workflows are properly managed in terms of final correct level of care assignment, the process to obtain signature on the observation notice on level of care changes post admission were not properly executed in all cases. In addition, certain deficiencies in processes exist due to inadequate information systems technology workflows in the Hospital's current electronic health record (EHR).

Failure to maintain supporting documentation inhibits the auditors' ability to test the University's compliance with applicable laws and regulations. Further, failure to comply with the Act could subject the University to litigation risk. (Finding Code No. 2019-007, 2018-013, 2017-015)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

Recommendation:

We recommend the University strengthen its controls to ensure *Notice of Observation Status* forms are retained for all patients not admitted into the University Hospital, but who are under observation status.

University Response:

Accepted. The University will continue to monitor internal processes and continue to work on improving compliance with this requirement. Additionally, implementation of a new electronic health record (EHR) for the Hospital is set to occur in May 2020 which is expected to improve data capture and efficiency of process. Finally, there are occurrences where payer driven level of care changes can occur post discharge (i.e. after a patient has left the facility). The Statute did not contemplate such an occurrence which is being driven by insurance companies on a retrospective basis. Accordingly, there is no immediate action the Hospital can take for this portion of the activity. The University is working to seek a legislative remedy.

Year Ended June 30, 2019**

2019-008. Finding: Failure to Follow Time Reporting Requirements

The University of Illinois (University) did not require all employees to submit time reports as required by the State Officials and Employees Ethics Act.

During testing of payroll, we selected 30 employees across all three campuses and noted the following:

- Nine employees (two from the Urbana-Champaign campus, three from the Chicago campus, three from the Springfield campus, and one from University Administration) did not file time reports as required by the State Officials and Employees Ethics Act. University management stated faculty, postdoctoral employees, instructors, and lecturers continue to track their time using a “negative” timekeeping system whereby the employee is assumed to be working, unless noted otherwise.
- One employee from the Urbana-Champaign campus, under the Academic Professional employee class, did not properly submit time reports, as required by the University policy. The employee did not submit positive-time reporting for one workweek.

The State Officials and Employees Ethics Act (Act) (5 ILCS 430/1-5) defines “State agency” to include “public institutions of higher learning...” and defines “State employee” to be “any employee of a State agency”. The Act required the Illinois Board of Higher Education (IBHE), with respect to State employees of public universities, to adopt and implement personnel policies. The Act (5 ILCS 430/5-5(c)) also states, “The policies shall require State employees to periodically submit time sheets documenting the time spent each day on official State business to the nearest quarter hour; contractual State employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement.” The IBHE adopted personnel policies for public universities on February 3, 2004 in accordance with the Act. The University has not incorporated these policies into the University’s policies.

The University Reporting Policy for the State Officials and Employees Ethics Act (SOEEA) requires all Academic Professional and Civil Service employees to document all hours worked, using the University’s Online Reporting tool, while conducting official University business.

University officials stated they have not incorporated policies regarding time reporting for all employees as they are having continued dialogue with the academic leadership on this matter. In the meantime, the System has implemented several mechanisms to comply with the requirement for the majority of their employees such as training and weekly reminder emails; however, trying this has proven difficult to achieve full compliance due to the thousands of employees with competing priorities.

Failure to follow and ensure all employees comply with the time reporting requirements of the Act results in noncompliance with the Act. (Finding Code No. 2019-008, 2018-014, 2017-016, 2016-016, 2015-021, 2014-023, 2013-016, 12-19, 11-33, 10-37, 09-40, 08-11, 07-11, 06-06, 05-06)

Recommendation:

We recommend the University implement procedures to ensure all employees submit time sheets as required by the Act.

University Response:

Accepted. University of Illinois System leadership is initiating discussions related to regulatory relief in this area.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

2019-009. Finding: Inadequate Controls over University Travel Card Transactions

The University of Illinois (University) did not establish adequate internal controls over travel card (T-card) transactions.

The University operated a travel card program allowing individuals traveling for University business to pay for qualified travel expenses and business meals, which were then directly reimbursed by the University on a monthly basis. The University's policies require employees assigned a travel card to complete training on University travel card policies, and sign an agreement stipulating they will use the card in accordance with the University policy. The University's policies also require transactions incurred on a travel card to be approved in the University's travel card system by the individual cardholder and an assigned reviewer. However, during our test work over 102 travel card transactions (totaling \$323,414), including 42 transactions noted for unusual activity, we noted the following:

- One purchase (totaling \$6,959) exceeded the cardholder's single transaction limit amount. This purchase was split between two different T-card transactions. The required *T-Card Exception Request Form* was not properly approved by the Department Head prior to using the T-Card as required by the University travel card policies;
- Fifteen transactions (totaling \$112,573) were paid in multiple installments, exceeding the cardholder's single transaction limit of \$4,999. The required *T-Card Exception Request Forms* were not filed prior to using the T-Cards for these purchases; and
- One transaction (totaling \$8,971) was made prior to completion of the required *T-Card Authorization Form*.

The University has approximately 3,756 active travel cards, and the travel card expenditures paid for the year ended June 30, 2019 totaled \$42,458,488.

The University's policies and procedures state that use of the Travel Card for an expense that is normally prohibited by a policy or is above a Cardholder's limit must be approved prior to using the T-Card for the purchase. Exceptions to University policies or procedures regarding T-Card use must be documented on a *T-Card Exception Request Form*. These requests may be approved when necessary to meet special circumstances or when in the best interest of the University and the State.

In addition, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law; (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure travel card transactions are properly reviewed and approved to avoid prohibited transactions from being paid and recorded.

University management indicated the exceptions resulted from human error at the individual and/or unit level by not following established policies and procedures.

Failure to properly review and approve travel card transactions in accordance with University policies and procedures could result in prohibited or fraudulent transactions being recorded in the general ledger system. (Finding Code No. 2019-009, 2018-015, 2017-017, 2016-018)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

Recommendation:

We recommend the University review its current process for reviewing and approving travel card transactions and consider any changes necessary to ensure charges are made in accordance with University policies and procedures.

University Response:

Accepted. The University will continue to enhance transaction monitoring and training efforts.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

2019-010. Finding: Noncompliance with the Illinois Health Policy Center Act

The University of Illinois (University) did not comply with the requirements of the Illinois Health Policy Center Act (Act).

As of June 30, 2019, the University had not created the Illinois Health Policy Center (Center) as required by the Act. The purpose of the Center is to develop and implement policies to improve the health and healthcare of the people of Illinois.

The Illinois Health Policy Center Act (110 ILCS 430/10) requires the Illinois Health Policy Center to be created within the University of Illinois, to be sponsored by the University of Illinois at Chicago College of Medicine and the University of Illinois Institute of Government and Public Affairs.

University officials stated HB 3286 was passed by the Illinois General Assembly and signed into law by the Governor as Public Act 095-0986, the Illinois Health Policy Center Act. The companion legislation (HB 6299) that would have funded the proposed Health Policy Center was never passed by the General Assembly. Similarly, the Advisory Panel envisioned in Section 20 of the Act was never created by the General Assembly.

Failure to create the Center results in noncompliance with the Act. (Finding Code No. 2019-010, 2018-016, 2017-018)

Recommendation:

We recommend the University comply with the requirements of the Illinois Health Policy Center Act or seek legislative remedy.

University Response:

Accepted. The University is working to seek a legislative remedy. SB1499 was introduced to request repeal of Illinois Health Policy Center Act (110 ILCS 430/10). An additional bill will be filed this session.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

2019-011. Finding: Noncompliance with University Guidelines of the Illinois Legislative Audit Commission

The University of Illinois (University) did not adhere to the University Guidelines (1982) of the Illinois Legislative Audit Commission (LAC).

During our review of the Entity Financial Statements and Related Information of the University report on Supplementary Financial Information and Special Data Requirements for the year ended June 30, 2019, we noted that for the Departmental Activities – Professional Development Activities accounting entity, the University Springfield (UIS) campus reflected a net position deficit as of June 30, 2018 and 2019, thereby causing a subsidy of funds to occur for that entity.

The Illinois Legislative Audit Commission's *University Guidelines 1982* (as amended in 1997) state (Chapter III, Section D, Part 1) that "there shall be no subsidies between accounting entities. Subsidies include cash advances and interfund payables/receivables outstanding for more than one year."

University officials stated revenues for this accounting entity have declined in the past three fiscal years. While efforts have been made to reduce expenses, this reduction effort has been offset by the reduced income.

The subsidy for the Professional Development Activities accounting entity is a violation of the University Guidelines. (Finding Code No. 2019-011, 2018-018)

Recommendation:

We recommend the University comply with the Legislative Audit Commission's *University Guidelines* or seek remedy from the Legislative Audit Commission.

University Response:

Accepted. The University has controls in place to identify and remediate deficits within its self-supporting accounting entities. Additionally, controls are in place to closely monitor and prevent inappropriate transfers (subsidies) between self-supporting accounting entities.

During fiscal year 2019, the University of Illinois at Springfield initiated deliberate steps to end the activity creating the deficit in this accounting entity. The University will investigate how to resolve the residual deficit in compliance with the Legislative Audit Commission University Guidelines.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

2019-012. Finding: Lack of Adequate Controls over the Review of Internal Controls over Service Providers

The University of Illinois (University) did not obtain or conduct timely independent internal control reviews over its external service providers.

As part of the examination process, we requested the University to provide the population of service providers utilized by the University in order to determine if they had reviewed the internal controls over the service providers. In response to our request, the University provided a listing of service providers utilized during the audit period. However, the University was unable to provide documentation demonstrating the completeness of the population.

Due to the conditions noted above, we were unable to conclude the University's population records were sufficiently precise, complete, and detailed under the Professional Standards promulgated by the American Institute of Certified Public Accountants (AU-C § 330, AU-C § 530, AT-C § 205).

Although the University was unable to provide a complete population of service providers, we performed testing on the 80 service providers identified by the University. The service providers provided various services to the University:

- Claims billing,
- Claims collections,
- Insurance claims,
- Electronic shopping,
- IT hosting service, and
- Software as a Service.

During our testing, we noted the University had not obtained Service Organization Control (SOC) Reports or conducted independent internal control reviews for 30 (38%) service providers. In addition, for the 50 SOC reports received:

- The SOC Reports did not cover the entire examination period.
- The University had not conducted an analysis of all the SOC reports and the Complementary User Entity Controls (CUEC).
- The University had not conducted an analysis of the subservice organizations identified in the SOC Reports.

In the prior examination, the University stated although SOC reports were obtained for those service providers identified as critical to the financial operations of the University, independent internal control reviews were not always obtained for other service providers. In the current examination, the University indicated the lack of resources has resulted in the noted weaknesses.

The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires all State agencies to establish and maintain a system, or systems, of internal fiscal and administrative controls to provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources. In addition, generally accepted information technology guidance endorses the review and assessment of internal controls related to information systems and operations to assure the accurate processing and security of information.

Without having obtained and reviewed a SOC report or another form of independent internal controls review, the University does not have assurance the external service providers' or subservice organizations' internal controls are adequate to ensure the financial information is accurate and/or their information is secure. (Finding Code No. 2019-012, 2018-004)

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
CURRENT FINDINGS – STATE COMPLIANCE
Year Ended June 30, 2019**

Recommendation:

We recommend the University identify all third-party service providers and determine and document if a review of controls is required. Additionally, the University should:

- Obtain SOC reports or perform independent reviews of internal controls for all service providers.
- Monitor and document the operation of the CUECs relevant to the University's operations.
- Either obtain and review SOC reports for subservice organizations or perform alternative procedures to satisfy itself that the existence of the subservice organization would not impact its internal control environment.
- Document its review of the SOC reports and review all significant issues with subservice organizations to ascertain if a corrective action plan exists and when it will be implemented, any impacts to the University, and any compensating controls.
- Review contracts with service providers to ensure applicable requirements over the independent review of internal controls are included.

University Response:

Accepted. Significant progress was made over the last year to strengthen internal controls over service providers. SOC reports or some form of assurance documentation was sought for all 80 identified Service Providers with most providing various levels of documentation in response. For those service providers that provided SOC reports, the reports were reviewed and bridge letters were obtained to cover the difference in the University's audit period for some service providers including those considered critical. The University will work to continue progress on obtaining and reviewing assurance reports from its service providers.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED - GOVERNMENT AUDITING STANDARDS
For the Year Ended June 30, 2019**

A. Finding: Inadequate Controls over Self-Approved Timesheets

During the prior audit, the auditors noted the University had not followed established internal controls over self-approved timesheets. (Finding Code No. 2018-002, 2017-002)

Status: Not Repeated

During the current year engagement, the auditors noted the University strengthened their internal controls over self-approved timesheets to ensure supervisory approval is obtained prior to payroll disbursements occurring based on our sample testing.

B. Finding: Lack of Adequate Controls over the Review of Internal Controls over Service Providers

During the prior audit, the auditors noted the University did not obtain or conduct timely independent internal control reviews over its external service providers. (Finding Code No. 2018-004)

Status: Not Repeated

During the current audit, the auditors noted the University had made some improvements over the controls of third-party service providers. However, the improvements were not sufficient enough to ensure the third-party service providers' internal controls provided reasonable assurance. Therefore, the finding will be reported in the University's State Compliance Report as finding 2019-012.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED – FEDERAL COMPLIANCE
Year Ended June 30, 2019**

C. Failure to Timely Monitor Subrecipient and an Error in Recording a Subrecipient Cost

The University did not obtain timely documentation for submonitoring and had incorrectly recorded subrecipient's costs to the Head Start Program. (Finding Code No. 2018-008)

In the current year, similar exceptions were not identified in the samples selected.

D. Inadequate Documentation of Approvals for Payroll Disbursements

The University had inadequate documentation for approvals of the Health Center Program department payroll disbursements per its Clock-Work Time System procedures. (Finding Code No. 2018-009, 2017-013)

In the current year, similar exceptions were not identified in the samples selected.

E. Inadequate Documentation on Sliding Fee Discount Forms

The University of Illinois at Chicago – Mile Square Health Center (MSHC) did not maintain adequate documentation and did not follow the MSHC policy and procedures consistently for the Health Center cluster program. (Finding Code No. 2018-010, 2017-006)

In the current year, similar exceptions were not identified in the samples selected.

F. Inadequate Review of Title IV Fund Calculation

The University did not follow controls in place for reviewing the Return of Title IV calculations for students. (Finding Code 2018-011, 2017-012, 2016-012, 2015-018)

In the current year, similar exceptions were not identified in the samples selected.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
PRIOR FINDINGS NOT REPEATED – STATE COMPLIANCE
Year Ended June 30, 2019**

G. Finding: Contracts and Real Property Leases Not Properly Executed

The University of Illinois (University) had not established adequate internal controls over contracts and leases to ensure that all necessary approvals were received and that the agreements were executed prior to the performance and filed with the State of Illinois, Office of the Comptroller on a timely basis. (Finding Code No. 2018-012, 2017-014, 2016-015; 2015-020; 2014-022, 2013-018, 12-18, 11-32, 10-35, 09-35, 08-09, 07-10, 06-07, 05-05, 04-05, 03-06)

During the current year engagement, we noted the University continued to strengthen internal process controls, training, and transaction monitoring. This finding was moved to the immaterial letter as finding IM2019-001.

H. Finding: Inadequate Procedures over Maintenance of Accounts Payable Master Vendor File

The University had inadequate controls in place to monitor and maintain the accounts payable master vendor file. (Finding Code No. 2018-017, 2017-003, 2016-003)

During the current year engagement, we noted the University strengthened their internal controls over monitoring and maintaining the accounts payable master vendor file.

FINANCIAL RELATED INFORMATION SUMMARY
Year Ended June 30, 2019**

Financial related information presented in this section of the report includes the following:

- Financial Related Schedules:
 - Schedule of Expenditures of Federal Awards
 - Attachments to Schedule of Expenditures of Federal Awards
 - Notes to the Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards presented in this section has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in the auditors' opinion, it is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The findings and auditors' reports on compliance testing and questioned costs and internal control related to federal awards are presented in the Compliance Report section of this report.

these notes are an integral part of this Schedule.

STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2019

Note 1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the University of Illinois (University) under programs of the federal government for the fiscal year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net position, or cash flows of the University of Illinois.

The schedule designates federal awards as direct and pass-through. Direct awards represent federal funding awarded directly to the University by a federal agency, pass-through awards are federal awards passed through a non-federal entity. Pass-through identifying information is presented when available and when applicable.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are presented on a modified cash basis of accounting. The methodology for determining federal awards expended is:

Direct costs are reported as federal expenditures on a cash basis, with the following exceptions:

1. Academic Year (nine-month) faculty salaries charged to sponsored projects are earned over nine months and paid over 12 months.
2. Salaries and wages earned between the last payroll date in June and June 30 are accrued and included as a current year federal expenditure.
3. Payroll related fringe benefits costs that are charged on an actuarial basis are included as a current year federal expenditure.

Indirect costs are assessed as a percentage of direct costs and are included as a current year federal expenditure.

Expenditures reported on the Schedule meet the cost principles contained in OMB Circular A-21, *Cost Principles for Educational Institutions*, and/or in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The University of Illinois has not elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance. The University has approved federally recognized indirect cost rates negotiated between the University and the Federal Government.

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2019**

Note 3. Federal Student Loan Programs

As disclosed in the Schedule of Expenditures of Federal Awards, the Federal Direct Student Loans Program (CFDA 84.268) administered by the University of Illinois awarded approximately \$205.61 million at Urbana, \$238.27 million at Chicago, and \$17.38 million at Springfield.

In addition, the University of Illinois administers a series of loan programs as part of the Student Financial Assistance Cluster program. Loan balances subject to continuing compliance requirements during the year ended June 30, 2019 under the Federal Perkins Loan Program (Perkins), Health Professional Student Loans (HPSL), Nursing Faculty Loan Program (NFLP), Nursing Student Loan Program (Nursing), and Loans for Disadvantaged Students (LDS) programs were as follows:

	Perkins (84.038)	HPSL (93.342)	NFLP (93.264)	Nursing (93.364)	LDS (93.342)
Beginning loan balances	30,619,016	8,448,954	196,160	639,838	741,471
New loans issued	-	1,985,546	-	249,344	203,800
Federal capital contributions	-	-	-	-	-
Administrative cost allowance	-	-	-	-	-
Total	30,619,016	10,434,500	196,160	889,182	945,271

The total loan balances outstanding at June 30, 2019 were approximately \$25.33 million for Perkins, \$9.29 million for HPSL, \$166 thousand for NFLP, \$738 thousand for Nursing, and \$815 thousand for LDS.

Perkins = Federal Perkins Loan Program

HPSL = Health Professions Student Loans

NFLP = Nurse Faculty Loan Program

Nursing = Nursing Student Loans Program

LDS = Loans to Disadvantaged Students

**STATE OF ILLINOIS
UNIVERSITY OF ILLINOIS
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
June 30, 2019**

Note 4. Non-Cash Federal Assistance

The University of Illinois received a pass-through grant from Illinois Department of Human Services (IDHS) to review the applications of families seeking subsidized day care under the Temporary Assistance Needy Families cluster, the Child Care Development Funds cluster, and the Social Service Block Grant programs. The applications were reviewed according to guidelines set by IDHS, the prime recipient of the federal funds.

As a result of the University's application review, the Illinois State Comptroller distributed \$14,257,026 of federal funds to day care providers as follows:

<u>Program</u>	<u>Number</u>	<u>Assistance</u>
Temporary Assistance Needy Families	93.558	\$ 5,929,195
<i>Child Care Development Funds Cluster:</i>		
Child Care Development Block Grant	93.575	4,931,866
Child Care Mandatory and Matching Funds of the Child Care and Development Fund	93.596	3,336,387
Social Service Block Grant	93.667	59,578
Total non-cash federal assistance:		\$14,257,026

These federal funds, which are paid directly by the State of Illinois to the day care providers, are considered to be non-cash federal assistance to the University of Illinois. The amounts are reported on the Schedule and have been included for purposes of determination of major programs.

Note 5. Federal Insurance Disclosure

Federally funded medical malpractice insurance was in effect under the Federal Tort Claims Act for Health Resources and Services Administration Deeming Notice Number 1-F00000300-17-01 from July 1, 2018 to December 31, 2018 and Deeming Notice Number 1-F00000300-18-01 from January 1, 2019 through June 30, 2019.

Note 6. Federal Depository Library

The University's "Government Information" library (Urbana), "Albert E. Jenner Jr. Memorial Law Library" (Urbana), "Richard J. Daley Library" (Chicago), and "Norris L. Brookens Library" (Springfield) serve as depository libraries in the U.S. Government Publishing Office's Federal Depository Library. The Federal Depository Library Program gives the public free access to government information. The University is the legal custodian of government publications received under this program; however, these publications remain the property of the federal government.
