Column Definitions are now in My-UI-Financials

We are proud to deliver another enhancement to improve usability of the My-UI-Financials application. The new "About the table fields" link provides definitions of all the column fields in one easy click.

The **"About the table fields"** links are available on both the **All Funds** and **Self-Supporting & Service Plans** tabs. To view, simply click on the **"About the table fields"** link under the filter bar.
