Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, regulations, contracts, or grant agreements that could have a material effect on the operations of the University of Illinois (University). We are responsible for and we have established and maintained an effective system of, internal controls over compliance requirements. We have performed an evaluation of the University's compliance with the following assertions during the year ended June 30, 2011. Based on this evaluation, we assert that during the year ended June 30, 2011, the University has materially complied with the assertions below.

- A. The University has obligated, expended, received and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University has obligated, expended, received and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The University has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University on behalf of the State or held in trust by the University have been properly and legally administered, and the accounting and recordkeeping relating thereto is proper, accurate and in accordance with law.

Exit Conference

The federal and state compliance findings and recommendations appearing in this report were discussed with University personnel at an exit conference on March 14, 2012. Attending were Walter Knorr, Michael Bass, Maxine Sandretto, Heather Haberaecker, Ginger Velazquez, Sandra Moulton, Vanessa Peoples, Ruth Boardman, Patrick Patterson, Janet Ford, and Julie Zemaitis from the University of Illinois; Thomas Kizziah from the Office of the Auditor General; and Catherine Baumann, Jacqueline Dippel, Kristopher Allen, and Aanuoluwapo Jolaoso from KPMG LLP. Responses to the recommendations were provided by Maxine Sandretto in correspondence dated March 15, 2012.

KPMG LLP 303 East Wacker Drive Chicago, IL 60601-5212

Independent Accountants' Report on State Compliance and on Internal Control over Compliance for State Compliance Purposes

The Honorable William G. Holland Auditor General of the State of Illinois

and

The Board of Trustees University of Illinois:

Compliance

As Special Assistant Auditors for the Auditor General, we have examined the University of Illinois' compliance with the requirements listed below, as more fully described in the Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide) as adopted by the Auditor General, during the year ended June 30, 2011. The management of the University of Illinois (the University) is responsible for compliance with these requirements. Our responsibility is to express an opinion on the University's compliance based on our examination.

- A. The University has obligated, expended, received, and used public funds of the State in accordance with the purpose for which such funds have been appropriated or otherwise authorized by law.
- B. The University has obligated, expended, received, and used public funds of the State in accordance with any limitations, restrictions, conditions or mandatory directions imposed by law upon such obligation, expenditure, receipt or use.
- C. The University has complied, in all material respects, with applicable laws and regulations, including the State uniform accounting system, in its financial and fiscal operations.
- D. State revenues and receipts collected by the University are in accordance with applicable laws and regulations and the accounting and recordkeeping of such revenues and receipts is fair, accurate and in accordance with law.
- E. Money or negotiable securities or similar assets handled by the University on behalf of the State or held in trust by the University have been properly and legally administered and the accounting and recordkeeping relating thereto is proper, accurate, and in accordance with law.

We conducted our examination in accordance with attestation standards established by the American Institute of Certified Public Accountants; the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the Illinois State Auditing Act (Act); and the Audit Guide as adopted by the Auditor General pursuant to the Act; and, accordingly, included examining, on a test basis, evidence about the University's compliance with those requirements listed in the first paragraph of this report and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the University's compliance with specified requirements.

In our opinion, the University of Illinois complied, in all material respects, with the requirements listed in the first paragraph of this report during the year ended June 30, 2011. However, the results of our procedures disclosed instances of noncompliance, which are required to be reported in accordance with criteria established by the Audit Guide, issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of findings and questioned costs as findings 11-01 through 11-03 and findings 11-32 through 11-37. As required by the Audit Guide, immaterial findings relating to instances of noncompliance excluded from this report have been reported in a separate letter to your office.

Internal Control

The management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements listed in the first paragraph of this report. In planning and performing our examination, we considered the University's internal control over compliance with the requirements listed in the first paragraph of this report as a basis for designing our examination procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Audit Guide issued by the Illinois Office of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs we identified a certain deficiency in internal control over compliance that we consider to be a material weakness and other deficiencies that we consider to be significant deficiencies.

A deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with the requirements listed in the first paragraph of this report on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material noncompliance with a requirement listed in the first paragraph of this report will not be prevented, or detected and corrected on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as finding 11-01 to be a material weakness.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We

consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items findings 11-02 through 11-03 and 11-32 through 11-34 to be significant deficiencies.

Additionally, the results of our procedures disclosed other matters involving internal control over compliance, which are required to be reported in accordance with criteria established by the Audit Guide issued by the Illinois Office of the Auditor General and which are described in the accompanying schedule of findings and questioned costs as items 11-35 through 11-37. As required by the Audit Guide, immaterial findings relating to internal control deficiencies excluded from this report have been reported in a separate letter to your office.

The University's responses to the findings identified in our examination are described in the accompanying schedule of findings and questioned costs. We did not examine the University's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Illinois Auditor General, the Illinois General Assembly, the Illinois Legislative Audit Commission, the Governor of the State of Illinois, University management, the Board of Trustees of the University, others within the University, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable William G. Holland Auditor General of the State of Illinois

and

The Board of Trustees University of Illinois:

As Special Assistant Auditors for the Auditor General, we have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the University of Illinois (the University), a component unit of the State of Illinois, as of and for the year ended June 30, 2011, which collectively comprise the University of Illinois basic financial statements and have issued our report thereon dated December 16, 2011. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the University of Illinois Foundation (a discretely presented component unit in accordance with Government Auditing Standards), as described in our report on the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of The University of Illinois Alumni Association, Wolcott, Wood, and Taylor, Inc., Prairieland Energy, Inc., Illinois Ventures, LLC, The University of Illinois Research Park, LLC, and UI Singapore Research, LLC (all discretely presented component units) were not audited in accordance with Government Auditing Standards.

Internal Control over Financial Reporting

Management of the University is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider to be a material weakness and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or

combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency in the University's internal control over financial reporting described as finding number 11-01 in the accompanying schedule of findings and responses to be a material weakness.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses as finding numbers 11-02 and 11-03 to be significant deficiencies in internal control over financial reporting.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The University's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the University's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Illinois Auditor General, the Illinois General Assembly, the Illinois Legislative Audit Commission, the Illinois Governor, University management, the Board of Trustees of the University of Illinois, others within the University, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

KPMG LLP 303 East Wacker Drive Chicago, IL 60601-5212

Independent Auditors' Report on Compliance with
Requirements That Could Have a Direct and Material Effect on Each Major Program,
on Internal Control over Compliance, and on the Schedule of Expenditures
of Federal Awards in Accordance with OMB Circular A-133

The Honorable William G. Holland Auditor General of the State of Illinois

and

The Board of Trustees University of Illinois:

Compliance

We have audited the compliance of the University of Illinois (the University) with the types of compliance requirements described in the US Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* (the Compliance Supplement) that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2011, except the requirements discussed in the third paragraph of this report. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

The schedule of expenditures of federal awards and our audit described below does not include expenditures of federal awards for those agencies determined to be component units of the University of Illinois for financial statement purposes.

We did not audit the University's compliance with the requirements governing the repayments special test and provision compliance requirement in accordance with the requirements of the Student Financial Assistance Cluster: Federal Perkins Loan program as described in the Compliance Supplement. Those requirements govern functions performed by Affiliated Computer Services, Inc. (ACS). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements. ACS' compliance with the requirements governing the functions that it performs for the University for the year ended June 30, 2011 was examined by the accountants for the servicer in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the accountants' examination of ACS' compliance with such requirements.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of*

States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the University's compliance with those requirements.

Qualifications (Noncompliance)

As identified below and described in the accompanying schedule of findings and questioned costs, the University did not comply with certain compliance requirements that are applicable to certain of its major federal programs as listed below. Compliance with such requirements is necessary, in our opinion, for the University to comply with requirements applicable to the identified major federal programs.

Federal Program	CFDA No.	Compliance Requirement(s)	Finding Number
Cooperative Extension Services	10.500	Allowable Costs/Cost	11-04
		Principles and Matching	
Maternal and Child Health Services	93.994	Allowable Costs/Cost	11-05
Block Grant to the States		Principles	

In our opinion, except for the noncompliance described in the preceding paragraph, the University complied, in all material respects, with the requirements referred to above that could have a direct or material effect on each of its major federal programs for the year ended June 30, 2011. The results of our auditing procedures also disclosed other instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as findings 11-04 through 11-27.

Internal Control over Compliance

The management of the University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

Requirements governing the repayments special test and provision compliance requirement in the Student Financial Assistance Cluster: Federal Perkins Loan program as described in the Compliance Supplement are performed by ACS. Internal control over compliance related to such functions for the year ended June 30, 2011 was reported on by accountants for the servicer in accordance with the U.S. Department of Education's Audit Guide, *Audits of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Our report does not include the results of the accountants' for the servicer testing of ACS' internal control over compliance related to such functions.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the entity's internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be

no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, that material noncompliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 11-04 through 11-11 and 11-13 through 11-20 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance with a type of compliance requirement of a federal program, that is less severe than a material weakness in internal control over compliance yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 11-12 and 11-21 through 11-31 to be significant deficiencies.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the business-type activities and the aggregate discretely presented component units of the University of Illinois, a component unit of the State of Illinois, as of and for the year ended June 30, 2011 and have issued our report thereon dated December 16, 2011. Our report was modified to include a reference to other auditors. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the University of Illinois' basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The University's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the University's responses, and accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the Illinois Auditor General, the Illinois General Assembly, the Illinois Legislative Audit Commission, the Governor of the State of Illinois, University management, the Board of Trustees of the University, others within the University, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Current Findings – Governmental Auditing Standards

Finding 11-01 – Inadequate Year end Receivable and Payable Accruals Process

The University has not established adequate internal controls over accurately identifying and recording period end accounts payable and accounts receivable transactions for financial reporting purposes.

During our audit, we noted the University's year end accounts payable procedures include specifically reviewing cash disbursements made subsequent to year end through the fourth week in October to determine to which accounting period the related expense transactions pertained. We further noted the University's year end accounts payable procedures also include calculating and recording an estimate of unrecorded liabilities largely based on historical disbursement activity. In addition, the University performs reviews over cash disbursements subsequent to year end to track and monitor the actual level of unrecorded liabilities. The actual level of unrecorded liabilities is then compared to the estimate originally recorded for financial reporting purposes. The University's year end accounts receivable procedures require units to identify and report any accounts receivable. In relation to our testwork on revenue transactions, we reviewed 124 revenue transactions recorded during the fiscal year (totaling \$14,545,678) and 27 cash receipt transactions recorded subsequent to year end (totaling \$1,274,941). In relation to our testwork on expense transactions, we reviewed 205 expense transactions recorded during the fiscal year (totaling \$51,343,490) and 63 cash disbursements subsequent to year end (totaling \$39,192,830). During our review of these transactions we noted the following items were not recorded to the proper accounting period:

- Six educational activities revenue transactions for third party pharmacy billings (totaling \$370,897) which pertained to fiscal year 2010 but were recognized as revenue in fiscal year 2011.
- Three educational activities revenue transactions for drug information services billings (totaling \$52,356) which pertained to fiscal year 2011 but was recognized as revenue in fiscal year 2012.
- Two rental and lease revenue transactions (totaling \$813) which pertained to fiscal years 2010 and 2012 but were recognized as revenue in fiscal year 2011.
- One rental and lease revenue transaction (totaling \$1,016) which pertained to fiscal year 2012 but was recognized as revenue in fiscal year 2011.
- One rental and lease revenue transaction (totaling \$401) which pertained to fiscal year 2011 but was recognized as revenue in fiscal year 2010.
- Two educational activities revenue transactions for an accelerated corporate MBA cohort program (totaling \$955,642) which pertained to fiscal years 2009 and 2010 but were recognized as revenue in fiscal year 2011.
- One employee benefits expense transaction (totaling \$92,718) which pertained to fiscal year 2010 but was recognized as expense in fiscal year 2011.
- One supplies and services expense transaction (totaling \$34,553) which pertained to fiscal year 2011 but was recognized as expense in fiscal year 2012.
- Two travel expense employee reimbursements (totaling \$5,120) which pertained to fiscal year 2010 but were recognized as expense in fiscal year 2011.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Governmental Auditing Standards

- One scholarships and fellowships expense transaction (totaling \$1,250) which pertained to fiscal year 2010 but was recognized as expense in fiscal year 2011.
- Two supplies and services expense transactions (totaling \$44,020) which pertained to fiscal year 2010 but were recognized as expense in fiscal year 2011.

Generally accepted accounting principles require transactions to be reported in the period they are incurred. Additionally, the Fiscal Control and Internal Auditing Act (Illinois Compiled Statutes Chapter 30 Section 10/3001), requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized efficiently, effectively, and in compliance with applicable law; (2) obligations and costs are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to accurately assess whether expenditures and revenues are reported in the appropriate period.

In discussing these conditions with University personnel, they stated that the units associated with the exceptions did not adequately understand/follow the procedures required to record the transactions in the proper period.

Failure to accurately analyze cash disbursements and receipts subsequent to year end may result in the misstatement of the University's financial statements. (Finding Code 11-01, 10-03, 09-03)

Recommendation:

We recommend the University review its current process to assess the completeness of its revenue and expense accruals at year end and consider changes necessary to ensure all period end accounts payable and accounts receivables are accurately identified and recorded.

University Response:

Accepted. The University will review existing procedures in these areas and take corrective action to address the recommendation in this finding.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Governmental Auditing Standards

Finding 11-02 – Inadequate Controls over User Access to Information Systems

The University has not established adequate internal controls over access to the information systems used in its financial reporting process.

The University operates an Enterprise Resource Planning (ERP) system to manage the activities of the University, in addition to operating and supporting information systems for purchasing and human resource. The University functions in a highly distributed operating environment with several thousand users having varying types of system access. Access is granted to users of the University's information systems based on standardized user access profiles. The standardized user profiles are intended to assist the University in limiting access to the information systems based upon the assigned job functions of the specific users to which the profiles are assigned. The University has implemented a process to review standardized user profiles, train unit security contacts, and perform an annual access review for the Banner ERP system. However, the annual access reviews are not consistently and formally documented to provide evidence supporting the results of each user review. Further, the University has not performed a periodic access review of the human resources supporting information system.

In addition to the internal control deficiencies identified above, during our review of user access rights we identified several users with access rights that were inappropriate based on their roles and job functions presenting segregation of duties conflicts and the risk that erroneous or fraudulent transactions may be recorded in the general ledger. We identified the following exceptions regarding improper authorization or inappropriate access rights based upon review of each user's job function:

- There are 161 terminated users (out of 418 total terminated users) with active accounts that were not removed in a timely manner.
- There were 43 users (out of 99 total users) with inappropriate access to update accrued leave or sick time in Banner. None of these 43 users appeared to have performed inappropriate transactions.
- There were 8 users (out of 44 total users) with inappropriate access to release financial holds from a student account in Banner.
- There were 3 users (out of 84 total users) with inappropriate access to update employee pay rates in Banner.
- There was one user (out of 21 total users) with inappropriate access to update tuition rates and fees and student rate codes in Banner.
- There was one user (out of 45 total users) with inappropriate access to apply and unapply payments on student accounts in Banner.
- There was one user (out of 14 total users) with inappropriate access to update the vendor master file in Banner.
- There were two users (out of 17 total users) with inappropriate administrative access to the human resources supporting information system.
- There was one generic user account (out of 4,481 total user accounts) with inappropriate access to the purchasing information system.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Governmental Auditing Standards

• There were two new user accounts (out of a sample of 30 new user accounts) that were not properly authorized.

Further, we noted reviews of terminated employees with access to the information systems are not being performed effectively. Beginning in August 2010, the University's information technology department began implementing procedures to perform terminated employee access reviews on a daily basis. However, this procedure alone was not sufficient to provide timely removal of access of terminated employees. In addition, there are no procedures in place to monitor user access rights for employees who transfer positions and change job functions.

The Fiscal Control and Internal Auditing Act (Illinois Compiled Statues Chapter 30 Section 10.3001), requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized efficiently, effectively, and in compliance with applicable law; (2) obligations and costs are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, and unauthorized use; (4) revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure access rights granted to University employees are appropriate and to document monitoring procedures of the appropriateness of access levels on a continuing basis. In addition, generally accepted information technology guidance endorses the development of well-designed and well-managed controls to protect computer systems and data. Effective computer security controls provide for safeguarding, securing, and controlling access to systems, properly segregating incompatible duties, and protecting against misappropriation.

In discussing these conditions with University personnel, they stated that they agreed with the exceptions noted in this finding. They further noted that work had been underway to address many of the weakness noted.

Failure to properly assign and monitor user access rights may result in erroneous or fraudulent transactions being recorded in the general ledger system. Without adequate security over access rights, there is a greater risk that unauthorized changes or additions to the University's financial systems could occur and not be detected in a timely manner. If access rights are not reviewed and updated based on job responsibilities on a regular basis, there is a greater risk that transactions can be recorded by unauthorized individuals. (Finding Code 11-02, 10-01, 09-01, 08-05)

Recommendation:

We recommend the University implement procedures to formally document the reviews of user access rights, and maintain documentation of the results of those reviews, to ensure that the access rights granted to each user are appropriate based on their job responsibilities and that the planned level of segregation of duties is achieved on a continuing basis. Additionally, we recommend the University implement procedures to monitor user access rights for employees who transfer positions and change job functions and implement procedures to ensure reviews of user access rights for terminated employees are effectively performed.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Governmental Auditing Standards

University Response:

Accepted. The University's decentralized operating environment involves several thousand users, in hundreds of departments across the three campuses. These users are engaged in a variety of business and administrative functions necessary to perform the mission of the University. The University does have processes in place to limit the ability of users to perform transactions, but does agree that improvement to the user access control environment is needed and will be beneficial. The University has been working steadily to improve information systems access controls over the past year and will take the necessary corrective action going forward to address the recommendation in this finding.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Governmental Auditing Standards

Finding 11-03 – Inadequate Controls over University Procurement Card Transactions

The University has not established adequate internal controls over procurement card transactions.

The University operates a procurement card program which allows authorized employees throughout the University to make smaller qualified purchases (defined as less than \$4,999) on a charge card which is directly reimbursed by the University on a monthly basis. The University's policies require employees assigned a procurement card to complete training on policies and procedures, pass a test, and sign an agreement stipulating they will use the card in accordance with University policy. This agreement is also required to be authorized by the employee's supervisor or the department head. The University's policies require transactions incurred on the procurement card to be approved in the University's procurement card system by the individual cardholder and an assigned reviewer. Although the University has established policies and procedures for issuing procurement cards, incurring and paying for expenditures with procurement cards, and reviewing and approving of procurement card transactions, we noted the University has not implemented procedures to identify duplicate charges or to reconcile procurement card transactions with travel reimbursement forms. As a result, erroneous or duplicate charges may be paid and recorded by the University without any further detective controls to identify them. We also identified the following exceptions in our testwork over 40 procurement card transactions (totaling \$146,809):

- One transaction (totaling \$2,557) was for charges prohibited by the University's procurement card policies.
- Two transactions (totaling \$12,680) were each paid in two installments, circumventing the card holders' approved single transaction limit of \$4,999.
- Two transactions (totaling \$19,364) exceeded the single transaction limit of \$4,999.
- Two transactions (totaling \$2,664) were not reviewed and approved by an assigned reviewer.

The University has approximately 5,100 active procurement cards and the procurement card expenditures paid for the year ended June 30, 2011 totaled \$98,042,483.

The Fiscal Control and Internal Auditing Act (Illinois Compiled Statutes Chapter 30 Section 10/3001), requires the University to establish and maintain a system, or systems, of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized efficiently, effectively, and in compliance with applicable law; (2) obligations and costs are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) funds held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure procurement card transactions are in accordance with University policies and procedures and supporting documentation for each transaction is maintained.

Schedule of Findings and Questioned Costs
Year ended June 30, 2011

Current Findings – Governmental Auditing Standards

In discussing these conditions with University personnel, they stated the University is still in the process of implementing its new Travel and Expense Management System, which will provide controls, in addition to those already in place, to further eliminate the possibility of duplicate transactions with regard to travel reimbursements. The bulleted exceptions noted in this finding are a result of human error; specifically, the failure of certain employees to comply with University policy that is clearly stated and disseminated to all through required training.

Failure to properly review and approve procurement card transactions could result in erroneous or fraudulent transactions being recorded in the general ledger system. (Finding Code 11-03, 10-02, 09-02, and 08-03)

Recommendation:

We recommend the University review its current process for reviewing and approving procurement card transactions and consider any changes necessary to ensure charges are made in accordance with University policies and procedures and supporting documentation for each transaction is maintained. We also recommend the University implement procedures to identify duplicate transactions and to reconcile procurement card transactions to travel reimbursement forms.

University Response:

Accepted. The University recognizes that with approximately 5,100 active procurement cards, erroneous charges can and do occur. The University employs careful oversight and review to ensure these errors are minimal, and it takes immediate action when errors are discovered. The University will continue to be proactive in improving controls over the P-Card system and will continue to provide training and review of policies and requirements for all cardholders. The University anticipates completing implementation of its new Travel and Expense Management System, which will provide additional controls related to employee travel reimbursements, by the end of fiscal year 2012.

Questioned Costs: Cannot be determined

Finding 11-04 *Inadequate Documentation for Payroll and Fringe Benefit Expenditures*

The University does not have adequate documentation of payroll and fringe benefit expenditures for employees at the Urbana campus who work on the CES program or the Hatch Grant under the Research and Development Cluster program.

The University does not obtain effort certifications for employees who work on the CES program or the Hatch Grant under the Research and Development Cluster program as required by federal regulations. We reviewed a sample of 40 payroll and fringe benefit expenditures totaling \$296,716 for the CES program and 3 payroll and fringe benefit charges totaling \$3,603 for the Hatch Grant noting that the effort of these individuals was charged to multiple activities; however, effort certifications were not obtained. Additionally, we noted effort certifications were not obtained for any of the payroll charges used to meet the cost sharing (matching) requirements of the CES program and Hatch Grant. Total payroll and fringe benefit expenditures charged to the CES program for the fiscal year ended June 30, 2011 were \$2,840,684 and \$2,469,678 respectively. Total payroll and fringe benefit expenditures charged to the Hatch Grant for the fiscal year ended June 30, 2011 were \$1,756,265 and \$83,814 respectively. Total payroll and fringe benefit expenditures used to meet the cost sharing (matching) requirement of the CES program and Hatch Grant for the year ended June 30, 2011 were \$9,797,419 and \$14,527,032, respectively. No indirect costs were charged to the CES program or Hatch Grant.

We did note that bi-weekly time reports are prepared for most employees. However, these bi-weekly time reports, which are prepared on both a positive and negative (exception) basis depending on the type of employee, do not include the activities of the employee as required by OMB Circular A-21.

Our audit identified other controls and processes that the University has implemented to mitigate the risk that payroll costs are improperly charged to a federal program. These include required reviews and approvals of the

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

initial appointments of employees (i.e. allocation to federal and nonfederal projects) and monthly reviews by principal investigators (PI's) of labor distribution reports and project ledgers. However, the monthly review by principal investigators is not documented.

Section K of Chapter 3 of the Administrative Handbook for Cooperative Extension Work (dated May 1994) requires compensation of personal services for individuals working on multiple activities to be documented in accordance with the provisions of OMB Circular A-21, *Cost Principles for Higher Education Institutions* (OMB Circular A-21) which establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation. OMB Circular A-21 (Section J.10) requires that the distribution of salaries and wages for professorial and professional personnel be supported by semi-annual or monthly effort certifications under the after the fact activity report method.

OMB Circular A-21, *Cost Principles for Higher Education Institutions*, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation. OMB Circular A-21 (Section J8) requires that the payroll distribution system will allow confirmation of activity allocable to each sponsored agreement and each of the activity needed to identify F & A costs and the functions to which they are allocable.

Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure payroll expenditures are properly supported in accordance with OMB Circular A-21.

In discussing these conditions with University officials, they stated they believe the University systems provide adequate supporting documentation for payroll and fringe benefit expenditures claimed for federal reimbursement and cost sharing (matching) under the CES and the Hatch Grant within the Research and Development Cluster.

Inadequate documentation and lack of required effort certifications may result in the federal funds being expended for unallowable purposes. (Finding Code 11-04, 10-05, 09-05)

Recommendation:

We recommend the University implement procedures to ensure documentation exists to substantiate the afterthe-fact confirmation of activity allocable to each federal grant and cost share by the respective employee, principal investigator, or a responsible official.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

University Response:

Not Accepted. This is a repeat finding under resolution with the U.S. Department of Agriculture. Historically, the University has utilized the Activity Reporting System (ARS) and the Banner Time Reporting System to meet reporting requirements associated with receipt of federal formula funds allocated to the University of Illinois. Use of these systems is consistent with guidance outlined in the Administrative Manual for the Hatch Act (page 10) and the Administrative Handbook for Cooperative Extension Work (pages 3-28, 29).

ARS is a campus-based system for monitoring, validating and reporting activities and effort in the primary mission areas including instruction, research and outreach. The Banner Time Reporting System captures funding sources and hours worked for all employees paid in a non-salaried, biweekly manner. Supervisors and authorized unit personnel certify accuracy when approving work or benefit time reported in this system.

Programmatic oversight for use of the federal formula funds is achieved through annual reporting to USDA through the Plan of Work. Additionally, the Planning, Reporting and Evaluation System (PRES) brings together several reporting features for Extension professional field staff and hourly program staff that include activity reporting, contact reporting, leave reporting for professional field staff, plan of work impact reporting, and annual self-evaluations. Financial oversight is achieved through the filing of annual financial reports that outline the amount of appropriation expended, and the amount of required match made available to support the research and extension programs at Illinois in any given fiscal year. Financial information from University accounting systems is utilized to document expenditures associated with federal formula funds and also to document the pool of allowable expenditures associated with required matching.

Given the unique nature of the federal formula fund appropriations, the University believes its systems provide sufficient documentation to meet the requirements for programmatic and financial reporting as outlined in the administrative manuals associated with these funding streams and additionally, Circular A-21 requirements. However, the University is in the process of adding additional procedures to ensure documentation exists that will substantiate the after-the-fact confirmation of activity allocable to each federal formula fund and cost share by the respective employee, principal investigator, or a responsible official. Beginning in fiscal year 2012, the University, in collaboration with USDA, is refining a methodology, similar to that used for the sponsored projects, which will provide additional documentation related to this confirmation process.

Auditors' Comment:

As noted in the finding above, the University does not obtain effort certifications for employees who work on the CES program or the Hatch Grant under the Research and Development Cluster program. Additionally, biweekly time reports do not include the activities of employees. Although we acknowledge there are other controls and processes the University has implemented to mitigate the risk that payroll costs are improperly charged to a federal program, we believe the University is not in compliance with documentation requirements for payroll costs under OMB Circular A-21.

Finding 11-05 Inadequate Documentation for Payroll and Fringe Benefit Expenditures

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

The University does not have adequate documentation of payroll and fringe benefit expenditures for employees who work on the Research and Development Cluster program and MCH Block Grant.

Bi-weekly time reports are prepared for non-academic and hourly personnel. These bi-weekly time reports, which are prepared on both a positive and negative (exception) basis depending on type of employee, are intended to meet the effort reporting requirements of OMB Circular A-21, *Cost Principles for Higher Education Institutions*. Supervisors review and approve the time and the respective federal and nonfederal project (fund) allocations.

During our testwork over 84 payroll charges for the Research and Development Cluster program and 40 payroll charges for the MCH program, we noted the following:

- For one R&D employee paid \$322 (from awards #NSF-DRL-0918434) and four MCH employees paid \$5,760 at the Chicago campus, the hours charged and certified by the employee were subsequently transferred to a new award and were not recertified.
- For six R&D employees paid \$5,895 (from awards #5-ULI-RR029879-03, NIOSH-5-T42-OH008672-06, #CDC-5-U58-DP001017-04, and #DARPA-HR0011-10-C-0105) at the Chicago campus, the timesheet selected for testwork was prepared and reviewed by the same individual.
- For two R&D employees paid \$1,539 (from awards #5-ULI-RR0229879-03 and #NCI-2-P01CA098262-06A1) at the Chicago campus, the timesheet selected for testwork did not identify the fund codes for the projects being charged.
- For two R&D employees paid \$1,250 (from awards #Army-W911NF-09-1-0436 and #DOE-DE-FG07-07ID14891), the Urbana campus was unable to provide the timesheet selected for testwork.
- For one R&D employee paid \$224 (from award #SNP-5-R01-DA025039-04), the Chicago campus was unable to provide the timesheet selected for testwork. Additionally, the payroll charge selected for testwork was paid and expended in fiscal year 2011 but related to work performed during fiscal year 2010.
- For two R&D employees paid \$2,804 (from awards #Rutgers-U-PO-S1299015-ORG-10589 and #NCI-2-PO1-CA098262-06A1) at the Chicago campus, the timesheet selected for testwork did not identify the fund codes for the projects being charged. Additionally, the timesheets were printed and manually approved instead of going through the normal electronic approval process.

The payroll and fringe benefit costs charged to the major programs were as follows:

Program Name	Payroll Expenditures	Fringe Benefit Expenditures	Total
Research and Development	\$194,723,968	\$43,692,404	\$238,416,372
MCH Block Grant	1,344,669	426,021	1,770,690

Additionally, associated indirect costs are estimated to be 57 to 58.5% of the payroll and fringe benefit costs, excluding research training grants.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Our audit identified other controls and processes that the University has implemented to mitigate the risk that payroll costs are improperly charged to a federal program. These include required reviews and approvals of the initial appointments of employees (i.e. allocation to federal and nonfederal projects) and monthly reviews by principal investigators (PI's) of labor distribution reports and project ledgers. However, the monthly review by PI's is not documented.

OMB Circular A-21, *Cost Principles for Higher Education Institutions*, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation.

Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure payroll and expenditures are properly supported in accordance with OMB Circular A-21 and represent actual expenditures that have been paid or incurred.

In discussing these conditions with University officials, they stated the missing timesheets at the Urbana campus were unable to be located. The Chicago campus implemented a compliant web time approval process for bi-weekly employees whose salaries are charged to federal awards. The process was implemented mid-fiscal year, immediately after the completion of the fiscal year 2010 A-133 audit. The test sample for the UIC employee population included pay periods prior to the implementation of the new process. The bi-weekly time approval process includes attestation by the person best suitable to attest to the hours worked and accounts charged.

Inadequate documentation and lack of required effort certifications may result in the federal funds being expended for unallowable purposes. (Finding Code 11-05, 10-04, 09-04)

Recommendation:

We recommend the University implement procedures to ensure documentation exists to substantiate the afterthe-fact confirmation of activity allocable to each federal grant and cost share by the respective employee, principal investigator, or a responsible official.

University Response:

Accepted. The Urbana campus agrees that two timesheets were unavailable to be provided as support. We believe that these are isolated instances and not indicative of ineffective controls. The Urbana campus will continue to stress the importance of adequate documentation.

In fiscal year 2011, the University of Illinois at Chicago implemented a compliant web time approval process for bi-weekly employees whose salaries are charged to federal awards. The process was implemented mid-fiscal year. The test sample for the UIC employee population included pay periods prior to the implementation of the new process.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Federal Agency: US Department of Health and Human Services (USDHHS)

Program Name: Maternal and Child Health Services Block Grant to the States (MCH Block Grant)

CFDA # and Program Expenditures: 93.994 (\$6,316,123)

Award Numbers: 03789004/93789004/53789004/L11G6788000/11G6788000/11G6518000/11G6517000/

11G6 517000(93.994)

Questioned Costs: Cannot be determined

Finding 11-06 <u>Incomplete Documentation in Client Eligibility Files</u>

The University did not maintain documentation supporting client eligibility determinations made for the MCH Block Grant.

MCH Block Grant funds are used to provide care to special needs children who meet a variety of program eligibility requirements which include medical, financial, and other general criteria. During our testwork of 40 beneficiary payments claimed under the MCH program, we noted two beneficiaries (receiving payments totaling \$13,183) for which information used to complete the financial need determination was not available. Specifically, the University could not locate tax returns, pay stubs, or other documentation supporting the family income reported for these beneficiaries. Total beneficiary payments for the MCH Block Grant were \$4,296,503 for the fiscal year ended June 30, 2011

According to 89 Illinois Administrative Code, Chapter X, Section 1200.50, financial assistance is provided to meet medical care expenses for children who meet the criteria of the State's financial need determination. Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal control should include procedures to ensure documentation is maintained to support eligibility determinations.

In discussing these conditions with University officials, they stated the documentation supporting family in these two cases was shredded.

Failure to adequately document eligibility determinations may result in ineligible beneficiaries receiving services for which they are not eligible. (Finding Code 11-06)

Recommendation:

We recommend the University review its current procedures for documenting eligibility determinations and implement any changes necessary to ensure eligibility determinations are documented in accordance with program regulations.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

University Response:

Accepted. The DSCC procedures for documenting eligibility determinations will be revised in accordance with program regulations for all active program files.

Finding 11-07 *Inadequate Procedures for Closing Federal Projects*

The University does have adequate procedures in place to ensure federal projects are closed in a timely manner.

The University administers thousands of individual federal projects from several federal agencies and passthrough entities which have varying project periods. The University has formally documented policies and procedures for closing out federally funded projects which generally require projects to be closed within 90 days after the project end date. Procedures have been established to send a notice of terminating accounts to the principal investigator or program coordinator 90 days prior to the project end date. The notice provides

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

information about the process for closing projects and includes an information request for any extensions granted and other project information necessary to complete the project close out. Personnel in the Grants and Contracts Office are responsible for ensuring the University has met its obligations under the project, closing the general ledger accounts, and returning any unexpended grant funds to the federal agency or pass-through entity.

During our review of the schedule of expenditures of federal awards for the year ended June 30, 2011, we noted expenditures (or negative expenditures) were reported for several projects with end dates prior to June 30, 2009. Specifically, we noted the following:

		Year ended June 30, 2011		
Year ended	Number of projects with end date during fiscal year	Number of cost transfers	Dollar amount of positive cost transfers	Dollar amount of negative cost transfers
June 30, 2000	1	2	\$2,136	\$ -
June 30, 2002	2	3	_	(2,136)
June 30, 2003	2	22	_	(62,138)
June 30, 2004	3	12	22	(59,792)
June 30, 2005	6	110	11,104	(130,441)
June 30, 2006	6	101	34,665	(121,385)
June 30, 2007	14	61	13,163	(16, 833)
June 30, 2008	31	507	64,449	(508,907)
June 30, 2009	76	1,711	317,969	(448,107)
Totals	141	2,529	443,508	(1,349,739)

Upon review of a sample of 40 transactions recorded in projects with end dates prior to June 30, 2009, we noted the vast majority of the transactions selected were to transfer expenditures to the correct project accounts. The underlying transactions being transferred had been erroneously recorded to an incorrect project several years prior to the date of the transfer. Accordingly, the periodic financial reports previously submitted for several of the University's federally funded projects inaccurately included or excluded project expenditures which were later transferred between projects.

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110) requires accurate, current, and complete disclosure of the financial results of each federally-sponsored project or program in accordance with the applicable reporting criteria. OMB Circular A-110 also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures (including cost transfers) are allowable in accordance with federal regulations.

In discussing these conditions with University officials, they stated there a variety of reasons for delays in grant close-outs.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Failure to close projects and process necessary cost transfers in a timely manner may result in inaccurate periodic financial reports and disallowances of costs. (Finding Code 11-07, 10-11, 09-13)

Recommendation:

We recommend the University implement procedures to monitor the timeliness of project close outs. Additionally, the University should review its current processes to identify any additional procedures necessary to reduce the number of late cost transfers being processed upon the close out of its federal projects.

University Response:

Accepted. However, the University disagrees with the data in the audit firm's table presented above. The overall total of 141 awards reported as having expenditure activity in fiscal year 2011 is not representative of the true population.

The full population of all awards that were closed (termed) on all campuses during fiscal year 2011 was 2,379 awards in total. For all Campuses, the total number of awards active during fiscal year 2011 was 8,781 of which 5,458 are federally funded.

2,529 individual expenditure transaction entries are noted in the tables above. This is the total number of expenditure transactions posted to the awards; not all of these transactions are cost transfers. 1,342 of the transactions (~53% of the total) are system-generated assessments for fringe benefits or F&A that automatically post in the accounting system subsequent to the direct expenditure posting. 97 transactions are administrative adjustments posted by the central administrative offices to correct fringe benefit or F&A assessments. Of the remaining 1,090 transactions, 1,006 (~92% of the remaining) are adjusting entries with an absolute value of \$100 or less. Many of these entries were necessary bookkeeping adjustments needed to zero out the funds to a status where budget/expenditures/cash collected values are equal. This was required before the awards could be administratively closed out (termed) in the financial accounting system.

Further, the University notes that while the close-out process will apply to all the awards listed within this finding, many of the awards specifically listed in this finding are currently active.

The University acknowledges the grant closeout process can be complicated and delays may occur for a variety of reasons. There are instances of late award close-out. The causes of a late close-out vary depending on the award and the situation. Incremental funding on multi-year awards may be delayed, causing valid and allowable expenditures to post during the wait period. Difficulties in collecting delinquent Accounts Receivable balances or completion of project deliverables have also contributed to delays in the closeout of awards.

The University believes adequate controls are in place, and the majority of awards are closed in a timely manner. The University will continue to monitor the timeliness of closeouts.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Auditors' Comment:

As discussed in the finding above, we noted several transactions posted to awards which ended prior to June 30, 2009. We believe the University should review its current processes to identify additional procedures necessary to monitor the timeliness of project close outs and reduce the number of late cost transfers required at close out.

Questioned Costs: None

Finding 11-08 *Inadequate Supporting Documentation for Cost Transfers*

The University does not adequately document cost transfers.

The University has formal policies and procedures which outline the documentation required to support cost transfers and a standard form has been developed to assist the University in collecting supporting documentation for each cost transfer. The standard form provides a series of potential reasons that a cost transfer may be required and prompts the preparer to other sections of the form to provide additional supporting documentation

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

as prescribed by University policy. The form is required to be certified by the principal investigator or another responsible official and must be reviewed and approved by the Grants and Contracts Office.

During our testwork over 195 cost transfers recorded during the year ended June 30, 2011, we were initially provided brief journal entry descriptions as the supporting documentation for each of the cost transfers selected. The journal entry descriptions consisted of a few sentences which generally stated an error had occurred in the original entry and that a transfer was required. These descriptions did not provide sufficient information to allow an independent party to understand the reason the cost transfer was required. Upon further investigation and inquiry, the University was able to provide other support which better described the reasons for some of the cost transfers tested. However, the standard cost transfer form was not completed in accordance with University policy for a majority of the transfers tested. Upon further inquiry, we noted these transfers were initiated by the Grants and Contracts Office in closing out projects and that the standard cost transfer forms were not completed for any cost transfers prepared by the Grants and Contracts Office.

OMB Circular A-21, Cost Principles for Higher Education Institutions, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation. OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110) requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures (including cost transfers) are adequately documented in accordance with federal regulations and University policy.

In discussing these conditions with University officials, they stated cost transfers are adequately documented and supported in accordance with University policy that meets the requirements of OMB Circular A-21 and OMB Circular A-110.

Failure to adequately document cost transfers may result in unallowable costs being charged to federal programs. (Finding Code 11-08, 10-12, 09-14)

Recommendation:

We recommend the University implement procedures to ensure costs transfers are adequately documented and supported in accordance with University policy.

University Response:

Not Accepted. The University believes cost transfers are adequately documented and supported in accordance with University policy and requirements of OMB Circular A-21 and OMB Circular A-110. The University has formal written policies for cost transfers for every campus. These policies are followed by Grants Office personnel during their review of cost transfers posted to sponsored project funds.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

The University's cost transfer policies address the type of support and documentation that is to be provided by the departments and/or PIs to support cost transfers. In some circumstances, as outlined in the policies, a standard form GC-81 "Cost Transfer Justification for Sponsored Projects" must be completed and filed with the Grants Office. The GC-81 form is an administrative document developed by the Grants Office to obtain additional supporting information from units for cost transfers on Sponsored Projects. The GC-81 form was not designed for, nor is there a requirement for it to be completed for, transfers made by internal Grants Office personnel in the course of making an administrative adjustment or closing out an award. This form is not used by Federal Agriculture Appropriations, i.e., Cooperative Extension Service. Additionally, there is policy guidance on what is considered timely and what requires additional documentation. Policy 16.1.2 states:

Transfers, with appropriate documentation should be initiated during the month that charges are originally recorded in Banner or within the next two months. For example, corrections of transactions originally recorded in Banner during the month of January should be processed no later than the voucher cut-off date for the month of March.

Transfers initiated after this cut-off date are considered non-current and require additional justification explaining why the transfers were not made in a timely manner.

The University disagrees with the Firm's statement "... standard cost transfer form was not completed in accordance with University policy for a majority of the transfers tested." The form was completed when required by policy. The majority of the transfers listed in the transaction detail provided by the Firm were considered timely, 132 out of 184 listed. Thirty-seven transfers were listed for Federal Agriculture Appropriations, i.e., Cooperative Extension Service. They are not Sponsored Projects and do not fall into the justification requirements developed for Sponsored Projects. These two categories account for 90 percent of the transfers noted. For the small number of transfers meeting the criteria to require a GC-81, the form was appropriately completed in accordance with policy and was provided to the Firm.

The University continues its assertion that the journal entry descriptions entered into the FOATEXT form have the purpose of providing Grants Office personnel basic, general information as outlined in the cost transfer policy and to provide a contact point for follow-up and investigative action, if needed. Comments provided in the FOATEXT form are not intended to provide an all-encompassing record for independent party review. The JV text form (FOATEXT) functionality, in the University's Banner system, is used to attach a brief explanation of the cost transfer to the journal voucher document number. Space in the FOATEXT form is limited to 50 characters per line. The policy guidance suggests what the brief statement should contain:

• JV - FOATEXT:

- o Explanation of transaction and benefit to project;
- o Date when service was provided or cost incurred;
- o Date and Document Number of original transaction; and
- o Preparer's name and telephone number

In addition to reading the brief narrative in the FOATEXT, a review of the grant file and other supporting documentation related to the transfer is often required in order to gain a more complete understanding of the reason for the cost transfer as well as the possible need to contract the preparer for more information.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

The University questions the inclusion of the programs of Temporary Assistance for Needy Families and Student Financial Assistance Cluster as no cost transfers for those programs were noted in the detailed list provided by the Firm.

Auditors' Comment:

As discussed in the finding above, the nature and reason for the cost transfer was not adequately documented and had to be supplemented through inquiry of University personnel and other documentation generated in response to our questions. We understand University policy to require a specific form to be completed to support cost transfers; however, several of the cost transfers were not supported with the standard cost transfer form. We believe the University should implement procedures to ensure costs transfers are adequately documented and supported in accordance with University policy and federal regulations. The control deficiency identified in this finding pertains to each program listed regardless of whether a specific exception was identified.

Award Numbers: Various (R&D)

Questioned Costs: None

Finding 11-09 *Inadequate Process for Monitoring Cost Share Requirement*

The University does not have an adequate process in place to ensure expenditures used to meet the cost sharing requirement of the Research and Development Cluster are allowable.

The University is required to meet cost share requirements for numerous awards in the Research and Development Cluster. The expenditures used to meet the cost share requirement are funded by multiple sources including contributed effort by University personnel, University funded contractual services, and costs funded by subrecipients of the University. During our testwork over 40 cost share expenditures, we noted twelve subrecipient expenditures that were not supported by detailed expenditure information. Upon further review, we noted the University had received signed letters certifying the expenditures were incurred from each subrecipient; however, the information provided by the subrecipient was not sufficient to allow the University to determine whether the costs meet allowable cost criteria, including whether the expenditures are adequately supported and documented by the subrecipient.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, states expenditures claimed as cost share must be verifiable from the recipient's records, allowable under the applicable cost principles, and must not be paid by the Federal Government under another award. Additionally, OMB Circular A-110 requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure cost share requirements are attained in accordance with program requirements.

In discussing these conditions with University officials, they stated they believe that certified statements from their research partners are sufficient documentation for the amount of the third party cost share.

Failure to adequately document and monitor cost share expenditures may result in the University using unallowable costs to meet its cost share requirement. (Finding Code 11-09)

Recommendation:

We recommend the University implement monitoring procedures to ensure cost share expenditures reported by its subrecipients are allowable.

University Response:

Not accepted. The University believes that certified statements from our research partners are sufficient documentation for the amount of the third party cost share. The University has asked for additional information from our research partners, at a level of detail that does not exceed that required for billings of direct expenditures, when deemed appropriate.

Auditors' Comment:

As noted in the finding above, the University did not receive sufficient information to determine the nature of the expenditures provided by the subrecipient to meet its cost share requirement. The information received simply included a dollar amount which is less detailed than the information required by the University for federal expenditures reported by its subrecipients. As documentation requirements pertaining to cost sharing expenditures are the same as federal expenditures, we do not believe the documentation received for cost share expenditures provided by subrecipients is adequate under OMB Circular A-21.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Federal Agency: US Department of Agriculture (USDA)

Program Name: Supplemental Nutrition Assistance Program (SNAP)

CFDA # and Program Expenditures: 10.551/10.561 (\$7,285,325)

Award Numbers: 81X6287000

Questioned Costs: Cannot be determined

Finding 11-10 Inadequate Process for Monitoring SNAP Cost Share

The University does not have an adequate process in place to ensure expenditures used to meet the cost sharing requirement of the SNAP program are allowable.

The University is required to meet a cost share requirement of approximately \$5.3 million relative to the SNAP program administered by the Chicago campus. The cost share is provided through the University's Chicago Partnership for Health Promotion which is a program aimed at providing high quality nutrition education, health promotion, and disease prevention services through partnerships directed at eligible families in Chicago. The expenditures used to meet the cost share requirement are funded by multiple sources including contributed effort by four University departments and contributed effort, space, and supplies from four municipal partners. The cost share expenditures are reported to the University's Grants and Contracts Office in Chicago on an annual basis by the University departments and on a quarterly basis by the municipal partners.

During our testing, we noted approximately \$480,000 of the cost share expenditures identified for the federal fiscal year ended September 30, 2010 related to contributed effort by University employees that was not supported by documentation required by the applicable cost circular. Specifically, we noted there were not annual effort certifications on file to document the effort of salaried employees identified by the University to meet the SNAP cost share requirement.

Additionally, we noted the University has not implemented procedures to monitor approximately \$3.5 million of cost share expenditures reported by its municipal partners. The University receives quarterly reports which summarize the cost share expenditures provided by its municipal partners; however, the information reported does not provide the University with sufficient information to determine whether the costs meet allowable cost criteria, including whether the expenditures are adequately supported and documented by the municipal partner.

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, states expenditures claimed as cost share must be verifiable from the recipient's records, allowable under the applicable cost principles, and must not be paid by the Federal Government under another award. Additionally, OMB Circular A-110 requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure cost share requirements are attained in accordance with program requirements.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

In discussing these conditions with University officials, they stated they will continue to refine the procedures for obtaining supporting documentation as appropriate for SNAP cost share.

Failure to adequately document and monitor cost share expenditures may result in the University using unallowable costs to meet its cost share requirement. (Finding Code 11-10, 10-09)

Recommendation:

We recommend the University implement procedures to ensure employee effort used to meet cost share requirements are adequately documented in accordance with the applicable cost principles. We also recommend the University implement monitoring procedures to ensure cost share expenditures reported by its municipal partners are allowable.

University Response:

Accepted. As of October 1, 2010, cost share contributions were no longer required for the SNAP Program and thus no change is required.

Questioned Costs: None

Finding 11-11 *Improper Reporting of Amounts in Financial Status Reports*

The University did not accurately report information its financial status reports in accordance with the applicable reporting requirements.

The University is required to prepare periodic financial status (SF-269) reports and federal financial (SF-425) reports for awards received directly from federal agencies. The SF-269 reports and SF-425 reports, which may

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

be prepared on the cash or accrual basis of accounting, include information on program expenditures, unliquidated obligations, and indirect expenses charged to the grant.

During our testwork of two SF-269 reports and 25 SF-425 reports submitted during fiscal year 2011, we noted the following:

- The University elected to use the cash basis of accounting for one SF-425 report submitted for the Research and Development Cluster and one SF-425 report for the Cooperative Extension Services program; however, the disbursement amount reported on those reports included certain accruals for expenditures paid subsequent to the reporting period.
- The University elected to use the accrual basis of accounting for two SF-425 reports submitted for the Research and Development Cluster; however, the disbursement amount reported on those reports excluded certain accruals for expenditures paid subsequent to the reporting period.
- The University did not report unliquidated obligations in two SF-425 reports selected for testwork in the Research and Development Cluster.
- The University submitted one SF-425 report for the Research and Development Cluster for the quarter ending June 30, 2011; however, the total federal funds authorized was reported using data as of July 31, 2011.
- The University inaccurately reported the total federal share of expenditures, indirect cost base, and indirect costs for two SF-425 reports for the Research and Development Cluster submitted by the Chicago campus. The amounts reported for the total federal share of expenditures, indirect cost base, and the indirect cost base and indirect costs for the first report did not agree to the general ledger and were overstated by \$590, \$590, and \$337, respectively. The amounts reported for the total federal share of expenditures, indirect cost base, and indirect costs for the second report did not agree to the general ledger and were understated by \$699, \$699, and \$182, respectively.
- The University inaccurately reported the total federal funds authorized, indirect cost base, and indirect costs for one SF-425 report for the Research and Development Cluster submitted by the Chicago campus. The amount reported for the total federal funds authorized did not agree to the general ledger and were overstated by \$72,262. The amounts reported for the indirect cost base and indirect costs did not agree to the general ledger and were understated by \$9,069 and \$5,169, respectively.
- The University inaccurately reported the total outlays and federal share of outlays for one SF-269 report for the Research and Development Cluster submitted by the Chicago campus. The amounts reported for the total outlays and federal share of outlays did not agree to the general ledger and were understated by \$235.
- The University inaccurately reported the unliquidated obligations for one SF-425 report for the Research and Development Cluster submitted by the Chicago campus. The amount reported for the unliquidated obligations did not agree to the general ledger and was understated by \$107.

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110) and the grant agreements, contracts, and other award documents for the major programs identified above, require the University to prepare periodic Financial Status Reports (SF-269 (OMB No. 0348-0039) and Federal Financial Reports (SF-425 (OMB No. 0348-0061). The instructions for the reports define the cash basis amount for outlays

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

as the sum of actual cash disbursements for the direct costs of goods and services, the amount of indirect expense charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subrecipients and for *unliquidated obligations* as obligations incurred, but not yet paid. OMB Circular A-110 also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure financial status reports are complete, accurate, and prepared using the accurate basis of accounting.

In discussing these conditions with University officials, they stated the errors were a result of clerical errors.

Failure to prepare reports in accordance with reporting requirements inhibits the ability of the federal agencies to properly monitor and evaluate the performance of the programs. (Finding Code 11-11, 10-15, 09-15)

Recommendation:

We recommend the University implement procedures to ensure the information reported in its financial status reports are complete, accurate, and on the appropriate basis of accounting.

University Response:

Accepted. The Urbana campus agrees that accruals were not included in the cumulative cash disbursement total on two awards. Additionally, due to a clerical error, one SF-425 report for the Research and Development Cluster incorrectly reported the total authorized funds. The amount was reported at the amount authorized for the date of the report submission, not the date of the period ending June 30, 2011.

For the Cooperative Extension Services, the University agrees that the initial SF-425 report submitted indicated a cash basis but contained certain accruals paid after the reporting period. The University also sought the advice from the Office of the Assistant Secretary for Administration, Division of Payment Management and followed their formal guidance for handling the reporting discrepancies.

The Chicago campus has procedures for the completion of financial status reports. Federal guidelines allow for revisions up to 15 months following the end of the budget period. The accounts noted in the finding were understated as a result of excluding applicable charges that had not posted to the ledgers at the time of reporting. Our records indicated the intent to submit revisions to recover the understated amounts. We agree that there was one report that indicated it was cash basis but included certain accruals and expenditures paid subsequent to the reporting period.

Award Numbers: Various (R&D)

Questioned Costs: None

Finding 11-12 Inaccurate ARRA 1512 Reports

The University did not accurately report expenditure information in Section 1512 reports submitted for the Research and Development Cluster program.

The University is required to prepare quarterly American Recovery and Reinvestment Act (ARRA) 1512 reports for ARRA awards. These reports are intended to provide transparency into how Federal dollars are being spent and will help drive accountability for the timely, prudent, and effective spending of recovery dollars. During our testing over three ARRA 1512 reports submitted for the quarter ending March 31, 2011 related to the Research and Development Cluster, we noted three reports prepared by the Urbana campus that were prepared using data for the quarter ending February 28, 2011. Additionally, during our testing over three ARRA 1512 reports submitted for the quarter ending June 30, 2011 related to the Research and Development Cluster, we noted two reports prepared by the Urbana campus that were prepared using data for the quarter ending May 31, 2011. As a result, the cumulative expenditures reported did not correspond to the quarter being reported.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Additionally, we noted the University does not have adequate documentation to substantiate that a formal review and approval of ARRA Section 1512 reports is performed.

Section 1512(c)(2) of the American Recovery and Reinvestment Act requires each recipient that received recovery funds from a Federal agency to submit a report to that agency not later than 10 days after the end of each calendar quarter, that contains the amount of recovery funds received that were expended or obligated to projects or activities through the reporting date. Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations* (OMB Circular A-110) requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure data reported in Section 1512 reports is accurate and the report has been reviewed and approved prior to submission.

In discussing these conditions with University officials, they stated the Urbana Campus began using the "Best Available Data" reporting model to allow sufficient time to extract and analyze data, create reports for PI review, and lastly, to populate detailed data in the required federal ARRA reporting templates and upload these reports by the reporting deadline.

Failure to prepare accurate reports inhibits the ability of the grantor to properly monitor and evaluate the performance of the program activities. (Finding Code 11-12, 10-16)

Recommendation:

We recommend the University revise its procedures to ensure expenditure data reported in Section 1512 reports corresponds to the applicable reporting period and to review and approve the reports prior to submission.

University Response:

Accepted. The Urbana Campus began using the "Best Available Data" reporting model to allow sufficient time to extract and analyze data, create reports for PI review, and lastly, to populate detailed data in the required federal ARRA reporting templates and upload these reports by the reporting deadline. Upon further guidance and clarification from OMB, the Campus revised its reporting methodology for fiscal year 2012 and discontinued using the lag methodology in order to ensure expenditure data reported in Section 1512 reports corresponds to the applicable reporting period.

53636 (47.076)

Questioned Costs: \$13

Finding 11-13 Inaccurate Fringe Benefit Charges

The University did not properly charge fringe benefits to awards in the SNAP and EHR programs.

The University calculates fringe benefits (including retirement, health, life, dental, Medicare, (OASDI), workers compensation, and termination benefits) based on the gross payroll amount each pay cycle for eligible employees. The ledger account code to which an employee is assigned in the payroll system identifies whether employees are eligible for the various types of benefits. During our testwork of 40 fringe benefit charges for the SNAP Cluster and Education and Human Resources (EHR) programs, we noted the following:

- Medicare benefits were not charged for one SNAP employee at the Chicago campus. Upon further investigation, we noted the employee was miscoded to the incorrect account and the employee's Medicare benefits were not recorded for the pay cycle tested or the fiscal year under audit. As a result, Medicare benefits in the amount of \$379 (including \$15 for the cycle tested) were not charged to the SNAP program during the year ended June 30, 2011.
- Termination benefits were incorrectly charged to the EHR program for one employee at the Urbana campus. Upon further investigation, we noted the employee was coded as a salaried academic professional in the payroll system rather than as an hourly graduate student (which is ineligible for termination benefits) for a period of one month during the fiscal year. As a result, termination benefits of \$13 (including \$4 for the cycle tested) were improperly charged to the EHR program during the year ended June 30, 2011.

For the year ending June 30, 2011, total fringe benefits for the SNAP and EHR programs were \$1,351,633 and \$159,679, respectively.

OMB Circular A-21, Cost Principles for Higher Education Institutions, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation.

Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure employees are properly coded within the payroll system and payroll and fringe benefit expenditures are properly charged in accordance with OMB Circular A-21.

In discussing these conditions with University officials, they stated coding errors were made at the time the appointments were established in the system.

Failure to properly code employees within the payroll system may result in unallowable costs being charged to federal programs. (Finding Code 11-13)

Recommendation:

We recommend the University implement procedures to ensure employees are properly coded in the payroll system and fringe benefits charges are properly charged to federal awards.

University Response:

Accepted. There was an error in the original Banner set up of the employee noted at the Urbana Campus. The miscoding allowed a termination benefits charge to inaccurately assess against the award. Additionally, an administrative error occurred at the Chicago Campus resulting in the exemption of the Medicare rate of 1.45% for one employee. Corrections are underway for both errors. These are both administrative errors and do not involve the Banner system. The two errors are isolated occurrences, and do not indicate ineffective internal controls.

We believe the University is in compliance with OMB Circular A-110 that requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. The internal controls include procedures to ensure payroll and fringe benefit expenditures are properly supported in accordance with OMB Circular A-21 and represent actual expenditures that have been paid or incurred.

Questioned Costs: Cannot be determined

Finding 11-14 Expenditures Reported in the Incorrect Accounting Period

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

The University reported expenditures under its Education and Human Resources program in the incorrect accounting period.

During our review of 40 other than personal services expenditures (totaling \$52,986), we noted one expenditure charged to the Education and Human Resources program in fiscal year 2011 pertained to an honorarium (for \$200) for an event held in fiscal year 2010. As a result, this amount should have been accrued for and reported in the fiscal year 2010 Schedule of Expenditures of Federal Awards (SEFA) since the University presents its SEFA on the accrual basis of accounting.

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure expenditures are reported in the proper accounting period.

In discussing these conditions with University officials, they stated they disagree with the finding.

Reporting of expenditures in the incorrect accounting period results in inaccurate financial reporting and may result in expenditures outside the period of availability being charged to federal programs. (Finding Code 11-14, 10-18)

Recommendation:

We recommend the University implement procedures to ensure expenditures are reported in the proper accounting period in its grant accounts.

University Response:

Not Accepted. The University acknowledges that the honorarium was paid in fiscal year 2011. As OBFS Policies and Procedures Section 17.3 details:

An honorarium is provided as a token of appreciation for participation in an activity. It is not a contractual obligation to pay for services rendered. An honorarium cannot be used as a payment for specified services rendered by either an independent contractor or a University employee. An honorarium payment is a lump sum payment to an individual, and not tied to any reimbursement of expenses the individual may also receive.

The policy details occasions that are appropriate for an honorarium payments. One such occasion is a speaking engagement which is why this token of appreciation (\$200) was given. The appropriate *Request for Honorarium Payment* form was approved and attached to the paperwork for this payment. Since there was no contractual obligation to pay this honorarium, it would not be considered to have been incurred in the prior period.

Furthermore, the University has strong procedures to ensure expenditures are reported in the proper accounting period in its grant accounts, and no other exceptions were noted.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Auditors' Comment:

Generally accepted accounting principles require transactions to be reported in the period they are incurred and the honorarium discussed in the finding above related to an event that occurred in fiscal year 2010. If the University's position is that this item is a gift to the speaker (token of appreciation), OMB Circular A-21 section J.13(b) states that donations or contributions made by the institution, regardless of the recipient, are unallowable. Additionally, as discussed in finding 11-01, there were several exceptions in our financial statement audit in which the University did not report expenditures in the appropriate period.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Federal Agency: US Department of Defense (USDOD)

Program Name: Research and Development Cluster

CFDA # and Program Expenditures: Various (\$580,892,475)

Award Numbers: Various (R&D)

Questioned Costs: None

Finding 11-15 *Inadequate Process for Limiting Indirect Costs on DOD Awards*

The University does not have an adequate process in place to ensure indirect costs charged to Department of Defense (DOD) awards in the Research and Development Cluster are limited in accordance with DOD regulations.

During our testwork, over 25 DOD awards we noted indirect costs charged to six awards were in excess of 35%. Upon further investigation, we noted the indirect cost rates entered in the University's accounting system for these grants was the standard Facilities and Administration (F&A) rate. As a result, the indirect cost charges applied by the University's accounting system exceeded the amount allowable under DOD regulations. Although the University indicated a manual reconciliation is performed on a monthly basis to correct these charges, we noted several awards for which the University was required to return excess indirect cost reimbursements at the end of the award and for which financial reports identified the indirect cost rate as the standard F&A rate. We also noted the University did not consider whether an interest calculation was required to be performed for any funds advanced as a result these excess reimbursements.

Per the Department of Defense's Appropriations Acts, Public Law 110-116, Division A, Section 8115, Public Law 110-329, Division C, Section 8109, and Public Law 111-118, Section 8101, notwithstanding any other provision of law, none of the funds made available in the Act may be used to pay negotiated indirect cost rates on a contract, grant, or cooperative agreement entered into by the Department of Defense and an entity in excess of 35 percent of the total cost of the contract, grant, or agreement provided, that this limitation shall apply only to contracts, grants, or cooperative agreements entered into after the date of the enactment using funds made available in the Act for basic research.

OMB Circular A-21, *Cost Principles for Higher Education Institutions*, establishes principles and standards for determining costs for federal awards carried out through grants, cost reimbursements contracts, and other agreements with higher education institutions. To be allowable under federal awards, costs must meet certain general criteria. Those criteria, among other things, require that the expenditures must be allocable, reasonable, and supported by adequate documentation.

Additionally, OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure the appropriate indirect cost rate is applied to all cash draw and reimbursement request calculations at the time of requesting funds from a federal agency.

In discussing these conditions with University officials, they stated they do limit the indirect cost recovery to 35% for applicable DoD awards. This indirect cost is calculated outside of the Banner system and any necessary adjustments are made in Banner to assure accurate indirect charges are reflected in the system.

Failure to adequately limit the indirect costs charged to DOD awards as required by federal regulations results in advances of federal funds. (Finding Code 11-15)

Recommendation:

We recommend the University implement procedures to ensure indirect costs charged to DOD awards are limited to 35% where required throughout the award period.

University Response:

Not Accepted. The University does have procedures to ensure indirect costs charged to DoD awards are limited to 35% of the total cost of the award. Per the Department of Defense's Appropriations Acts, Public Law 110-116, Division A, Section 8115, Public Law 110-329, Division C, Section 8109, and Public Law 111-118, Section 8101, indirect costs should not exceed 35% of the total cost of the contract, grant, or agreement.

The 35% limit on payment of indirect costs is not an indirect cost rate. Instead, it is a limit on the ratio of indirect costs to the total cost of an award. Dividing the total indirect costs by the total award amount will determine if the 35% limitation has been breached. For all six awards, the indirect cost did not exceed the imposed limitation of 35% of the total cost of awards.

A special DoD F&A limitation attribute was created and coded to applicable awards in the University's financial system. This attribute allows the University to monitor indirect costs on a daily basis to ensure the 35% limitation is not breached.

Auditors' Comment:

As discussed in the finding above, several DoD awards required excess reimbursements of indirect costs to be returned at the close of the award and six out of 25 DoD awards tested had indirect costs in excess of 35%. Further, the F&A limitation attribute was not consistently used by the University in identifying the awards subject to the DoD limitations.

Finding 11-16 <u>Inadequate Documentation to Support Key Personnel</u>

Adequate supporting documentation did not exist to substantiate University personnel worked on the grants for which they were proposed as key personnel for the Research and Development Cluster.

In an effort to secure federal awards from various federal agencies, the University is often required to commit certain researchers or other University personnel to minimum participation levels on specific federal projects. These individuals are identified as key personnel in the award documents and any changes to their committed level of participation require federal approval.

During our testwork over a sample of 42 completed Research and Development Cluster program projects, we noted five individuals at the Urbana campus identified as key personnel in award documents for which the University could not provide adequate documentation supporting the individuals worked on the projects at the required level of participation. The University provided project deliverables identifying these individuals were involved in the project activities; however, the University could not provide effort certifications, expenditure confirmations, or personnel appointment forms evidencing these individuals provided effort to the projects at the

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

levels required by the award documents. Additionally, the University could not provide documentation evidencing the awarding agency approved the removal of the key personnel from these projects.

According to the OMB Compliance Supplement, dated March 2011, any persons listed as key personnel in the award documents are considered essential to the work being performed on the project. Before removing, replacing, or diverting any of the listed or specified personnel, the grantee must: (1) notify the awarding agency reasonably in advance; (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on the award; and (3) obtain the awarding agency's written approval. Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure adequate documentation of the effort of key personnel on sponsored awards is maintained.

In discussing these conditions with University officials, they stated adequate supporting documentation in the form of reports, presentations, and interpersonnel agreements evidence that the principal investigators in question were involved in their respective research projects as noted in the original award documents.

Failure to notify the awarding agency before removing or replacing key personnel on a grant could result in the loss of federal funds. (Finding Code 11-16, 10-19)

Recommendation:

We recommend the University implement a process to notify the awarding agency in writing if key personnel are removed or replaced on the award and if the key personnel's pledged effort is modified from the award document. Additionally, documentation supporting employee effort should conform to the requirements of OMB Circular A-21.

University Response:

Not Accepted. We disagree that key personnel were "removed or replaced" or that effort was "modified from the award document" for the projects in question at the Urbana campus. The suggested audit procedures in the OMB A-133 Compliance Supplement are to determine if key personnel "were involved in the project as required". The five individuals, noted as key personnel, have considerable alternative documentation available to support their involvement and contribution on the awards.

All five key personnel were actively involved in the work leading to the successful completion of the projects, which is evidenced by documentation offered or provided to the audit firm in the form of annual, progress or final reports, or publications describing the activities and outcomes of the projects. The successful completion of the project, as well as the work described in the reports and papers, support the key personnel's involvement with and contribution of personal effort to the projects.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Auditors' Comment:

As noted in the finding above, the University was unable to provide documentation evidencing the effort expended by key personnel was consistent with that specified in the grant award and was unable to provide documentation supporting the awarding agency approved a change in the key personnel. We believe the University should implement procedures to ensure documentation of the effort expended by key personnel is consistent with OMB Circular A-21.

Questioned Costs: None

Finding 11-17 Failure to Obtain Suspension and Debarment Certifications from Vendors

The University did not obtain required certifications that certain vendors were not suspended or debarred from participation in federal assistance programs.

During our review of 205 contractual expenditures for the Research and Development Cluster, Cooperative Extension Services, Supplemental Nutrition Assistance Program Cluster, Education and Human Resources, Child Care Development Fund Cluster, and Maternal and Child Health Services Block Grant to States, we noted one expenditure for which the University did not obtain a suspension and debarment certification from the vendor. Additionally, the University did not document the performance of a verification check with the "Excluded Parties List System" (EPLS) maintained by the General Services Administration for the vendors.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Total contractual expenditures charged to the major programs during the year ended June 30, 2011 were as follows:

	Contractual
Program Name	Expenditures
Research and Development Cluster	\$153,807,615
Cooperative Extension Services	3,763,158
SNAP	865,212
Education and Human Resources	1,173,726
CCDF Cluster	536,357
MCH Block Grant	135,150

According to OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations* (OMB Circular A-110), nonfederal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. "Covered transactions" include those procurement contracts for goods and services awarded under a nonprocurement transaction (e.g., grant or cooperative agreement) that are expected to equal or exceed \$25,000 or meet certain other specified criteria. All nonprocurement transactions (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions. When a non-federal entity enters into a covered transaction with an entity at a lower tier, the non-federal entity must verify that the entity is not suspended or debarred or otherwise excluded. This verification may be accomplished by checking the *Excluded Parties List System (EPLS)* maintained by the General Services Administration, collecting a certification from the entity, or adding a clause or condition to the covered transaction with that entity.

OMB Circular A-110 also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures in place to ensure the required certifications for covered contracts and subawards are received, documented, and contracts not made with a debarred or suspended party.

In discussing these conditions with University officials, they stated they disagree with the finding.

Failure to obtain the required certifications or perform verification procedures with the EPLS could result in the payment of federal funds to vendors that are suspended or debarred from participation in federal assistance programs. (Finding Code 11-17, 10-20, 09-16)

Recommendation:

We recommend the University obtain certifications from vendors stating that their organization is not suspended, debarred, or otherwise excluded from participation in federal assistance programs or document the procedures performed to verify the vendor is not identified as suspended or debarred on EPLS.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

University Response:

Not Accepted. The University has established procedures to ensure vendors certify that their organizations are not suspended, debarred, or excluded from participation in federal assistance programs. As mentioned in the audit finding, verification can be obtained by adding a clause or condition to the covered transaction with that entity. While the University's purchase orders include certification language (a clause) that states "by the acceptance of this order, the contractor certifies that it or any affiliate has not been debarred...," we note that we also use additional procedures to verify that vendors are not suspended or debarred by checking the Excluded Parties List System (EPLS).

The University believes our procedures are adequate and that the EPLS was checked as required, however, as an isolated incident, the documentation was not included in the file for one expenditure. The remaining 204 expenditures demonstrate our general practice and evidence the adequacy of our procedures. The EPLS search for the vendor in question affirmed the vendor was neither suspended nor debarred.

Auditors' Comment:

As discussed in the finding above, the University did not obtain a certification from the vendor in this instance as the purchase order is not signed by the vendor. Additionally, the University could not provide evidence a check of the EPLS had been performed prior to our audit procedures.

0097-008/25-6324-0097-020/10-ACES374584/S10179/Y553769/H408906008/8000026125-AG/H408904313/H001226812/25-6324-0081-316/S08030/S08064 (10.500) 81X6287000(10.551/10.561) 07-15088FLW/08-31820/08-30884/06-22573MIST/08 17185/0850213/Y410676/0549245/53636 (47.076) 6H4HA00062-09-01/6H4AHA00062-08-01/HF4ETH08PPTRJASW00 (93.145) 81X6522000 (93.575/93.596/93.713) 03789004/93789004/53789004/L11G6788000/11G6788000/11G6518000/11G6517000/11G6 517000(93.994)

Ouestioned Costs: None

Finding 11-18 Failure to Properly Perform Interest Calculations on Federal Advances

The University does not properly calculate interest on federal funds drawn in advance.

The University receives federal funds on an advance basis under the Research and Development Cluster, Cooperative Extension Services, Supplemental Nutrition Assistance Program, Education and Human Resources, AIDS Training and Education Centers, Child Care and Development Fund Cluster, and Maternal and Child Health Services Block Grant. During our testwork, we noted the University has not performed an interest calculation for any of the programs or grants on which it received advanced funding as required by federal regulations. The University calculated interest on the net cash position of all its federal awards as of June 30, 2011; however, this methodology has not been approved by the University's federal cognizant agency (USDE).

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110) requires advances of federal funds to be maintained in interest bearing accounts and interest earnings in excess of \$250 to be remitted to the federal government. OMB Circular A-110 also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure interest calculations are performed and interest is remitted as required.

In discussing these conditions with University officials, they stated the University is in compliance with OMB Circular A-110 and does have effective and adequate internal controls in place.

Failure to properly perform required interest calculations results in noncompliance with cash management regulations. (Finding Code 11-18, 10-21, 09-17)

Recommendation:

We recommend the University implement procedures to properly calculate interest on federal funds received in advance of expenditures and to remit any interest earned to the appropriate federal agencies as required by federal regulations.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

University Response:

Not Accepted. The University has been performing a calculation of interest based on the net cash position in total for all federal awards. We believe the methodology is adequate for compliance with OMB Circular A-110. The results of the calculation have shown that there was no excess federal cash on hand and no interest due.

The methodology is being addressed by the University's Federal cognizant agency for clarification and guidance on this issue. We have provided documentation as requested to the cognizant for review. While the University has not yet received a final response, we are actively working with the agency to seek guidance and resolution.

Auditors' Comment:

The University should continue to work with their Federal cognizant agency (U.S. Department of Education and OMB) to determine whether interest calculations should be performed at a lower level, such as by individual letter of credit, program, or federal agency.

Finding 11-19 Failure to Notify Subrecipients of Federal Funding and Communicate ARRA Information

The University did not provide required program and ARRA information relative to federal funds passed through to the subrecipients of the Research and Development Cluster and Child Care Development Fund Cluster programs for the year ended June 30, 2011.

During our testwork of 40 subrecipients who expended \$23,742,918 of the Research and Development Cluster program funds, we noted the Chicago campus did not communicate the program title and award name in the grant award documents or funding notification letters provided to seven subrecipients with expenditures of \$1,798,730 during the year ended June 30, 2011. We also noted the University did not communicate any of required award information to subrecipients of its Child Care Development Fund Cluster program.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

In addition, during our testwork over disbursements of ARRA funds to subrecipients of the Research and Development Cluster program, we noted the Chicago campus did not maintain documentation of the CCR registration for the ARRA subaward for two subrecipients and the federal award number, catalog of federal domestic assistance (CFDA) number, or the amount attributable to ARRA was not identified at the time of each disbursement for two subrecipients at the Chicago campus.

Subrecipient expenditures under the Research and Development Cluster program for the year ended June 30, 2011 were \$68,396,059, of which, \$10,376,039 was funded by ARRA. Subrecipient expenditures under the Child Care Development Fund Cluster for the year ended June 30, 2011 were \$280,673.

According to OMB Circular A-133 §__.400(d), a pass-through entity is required to identify federal awards made by informing each subrecipient of the CFDA title and number, award name and number, and award year. The pass through entity is also required to advise subrecipients of requirements imposed on them by federal laws and regulations. According to the American Recovery and Reinvestment Act, Federal Agencies must require recipients to agree to: (1) separately identify to each subrecipient, and document at the time of the subaward and disbursement of funds, the Federal Award number, CFDA number, and the amount of ARRA funds; and (2) require their subrecipients to provide similar identification in their SEFA and data collection form. Additionally, OMB Circular A-110 also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure subrecipient award communications contain all required information.

In discussing these conditions with University officials, they stated this is a repeat finding for the Research and Development Cluster program and corrective actions were implemented prospectively. Additionally, the University did not initially consider the grantees under the Child Care Development Cluster program to be subrecipients.

Failure to inform subrecipients of federal award information could result in subrecipients improperly omitting expenditures from their schedule of expenditures of federal awards, expending federal funds for unallowable purposes, or not receiving a single audit in accordance with OMB Circular A-133. (Finding Code 11-19, 10-22, 09-30)

Recommendation:

We recommend the University review its current process for preparing subrecipient funding notifications to ensure all required information is properly communicated to its subrecipients. Additionally, we recommend procedures be modified to ensure required information is provided to subrecipients with each disbursement of ARRA funding.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

University Response:

Accepted.

For the Urbana campus – the University did not initially consider the grantees under the Child Care Development Cluster program to be subrecipients. Under the guidance of IDHS, the University will develop a process for preparing funding notifications to ensure all required information is properly communicated.

For the Chicago campus – the University implemented processes in fiscal year 2011 to ensure all required information is properly communicated to subrecipients, including the required information for each ARRA disbursement. The information submitted to the subrecipients noted in the finding was issued prior to the implementation of the new procedures.

Questioned Costs: None

Finding 11-20 Inadequate Monitoring of Subrecipient OMB Circular A-133 Audit Reports

The University is not adequately performing or documenting reviews of subrecipient OMB Circular A-133 audit reports. Additionally, the Chicago campus does not have a system to track and follow-up with subrecipients when OMB Circular A-133 reports have not been received.

The University requires subrecipients expending more than \$500,000 in federal awards during their fiscal year to (1) submit OMB Circular A-133 audit reports or (2) provide written notification that an audit was conducted in accordance with OMB Circular A-133 and the schedule of findings and questioned costs disclosed no audit findings relating to the Federal awards that were pass-through the University (notification letter). University staff in the Office of Grants and Contracts are responsible for reviewing the OMB Circular A-133 audit reports and determining whether the audit reports meet the audit requirements of OMB Circular A-133, evaluating the type of audit opinion issued (i.e. unqualified, qualified, adverse), and issuing management decisions on findings reported within required timeframes. However, there is no documentation of the "desk reviews" performed, nor does management use a checklist to help determine whether the audit reports meet the audit requirements of OMB Circular A-133 and whether management decisions have been issued on findings reported within required timeframes. Lastly, we noted the Chicago Campus does not have a process to track and follow-up with subrecipients when OMB Circular A-133 reports or notification letters have not been received.

Additionally, during our testwork over 40 subrecipients of the Research and Development Cluster program we noted the following:

- There were three subrecipients at the Urbana campus and three subrecipients at the Chicago campus for which a management decision was required, but was not issued by the University.
- There were three subrecipients at the Chicago campus for which A-133 audit reports were submitted after the nine month filing deadline. These files contained no documentation the University followed up on the delinquent report or approved an extension of the filing deadline.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Subrecipient expenditures under the federal programs for the year ended June 30, 2011 were as follows:

Program	Total Fiscal Year 2011 Subrecipient Expenditures	Total Fiscal Year 2011 Program Expenditures	%
Research and Development Cluster	\$68,396,059	\$580,892,475	11.77%
Foreign Language	815,865	3,252,991	25.08%
AIDS	1,526,957	3,056,530	49.96%

According to OMB Circular A-133 § .400(d), a pass-through entity is required to monitor the activities of subrecipients as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved. According to the OMB Circular A-133 compliance supplement, a pass-though entity is required to 1) ensure that subrecipients expending \$500,000 or more in Federal awards during the subrecipient's fiscal year have met the audit requirements of OMB Circular A-133 and that the required audits are completed within nine months of the end of the subrecipient's audit period, 2) issue a management decision on audit findings within six months after receipt of the subrecipient's audit report, and 3) ensure that the subrecipient takes timely and appropriate corrective action on all audit findings. In the cases of continued inability or unwillingness of a subrecipient to have the required audits, the pass-through entity shall take appropriate action using sanctions.

In discussing these conditions with University officials, they stated they disagree with the finding.

Failure to obtain and adequately review subrecipient OMB Circular A-133 audit reports and issue management decisions in a timely manner may result in federal funds being expended for unallowable purposes and subrecipients not properly administering federal programs in accordance with laws, regulations, and the grant agreement. (Finding Code 11-20, 10-23, 09-18)

Recommendation:

We recommend the University establish procedures to ensure all subrecipients receiving federal awards have audits performed in accordance with OMB Circular A-133. Additionally, desk reviews of A-133 audit reports should be formally documented using an A-133 desk review checklist and management decisions should be issued within six months.

University Response:

Not Accepted.

The Urbana Campus has established subrecipient monitoring procedures which include a formal process for conducting a thorough review and analysis of subrecipient's audits and making an informed management decision based on the review within nine months of the end of the subrecipient's audit period in order to ensure that audit reports for applicable subrecipients are completed and performed in accordance with OMB Circular A-133. The review includes the consideration of the adequacy of the corrective action plan provided for any

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

findings/questioned costs. Documentation of University's analysis and review of each subrecipient and the management decision made are available. Management Decision Letters were provided in instances deemed warranted by the review within 6 months of the receipt of the subrecipient's audit report. While management decisions were made, none of the exceptions required management decision letters. The reviewed findings did not relate to any of our subawards and the corrective action plans were deemed adequate. OMB Circular A-133, Section D 405 does not require the issuance of negative management decision letters.

The Chicago campus has established monitoring procedures to ensure subrecipients receiving federal awards have audits performed in accordance with OMB Circular A-133. The procedures include conducting desk reviews, determining the right course of action and noting management decisions in the subrecipient monitoring database when applicable. Management decisions were made and A-133 audit reports were received for the subrecipients noted in the finding.

Auditors' Comment:

OMB Circular A-133 Section .400(d)(5) and .405(c) require pass-through entities to issue management decisions for audit findings that relate to Federal awards it makes to subrecipients and ensure appropriate and timely corrective action is taken. OMB Circular A-133 Section .405(a) requires management decisions to clearly state whether or not the audit finding is sustained and the reasons for the decision, among other things.

As noted in the finding above, there were three A-133 reports for subrecipients of the Urbana Campus which contained findings for federal programs under which the University passed through federal funding. Although the University noted the findings did not pertain to their sub-awards, these findings included internal control deficiencies related to overall compliance processes used to administer the funding passed through by the University. Accordingly, management decisions were required to be issued by the University, but were not.

Additionally, in response to the Chicago campus potential exceptions, University personnel stated "The University deemed the plan of action as acceptable and made the management decision that no further action was required." The University did not provide documentation supporting that a management decision had been communicated to the subrecipient in accordance with OMB Circular A-133.

Award Numbers: 81X6287000

Questioned Costs: None

Finding 11-21 Inaccurate Quarterly Expenditure Reports Prepared for the SNAP Program

The University did not accurately report amounts in quarterly reports for the SNAP Program submitted to the Illinois Department of Human Services (IDHS).

The University is required to prepare a quarterly expenditure report for the SNAP program which identifies the expenditures incurred to date under the federal award. The quarterly expenditure reports are used by IDHS to monitor the University's spending under the program and to determine the amount to be reimbursed to the University (reported on the line item "Total Amount Due").

During our testwork over the quarterly expenditure report submitted for the quarter ended March 31, 2011, we noted the University inaccurately reported the "Less Payments Previously Requested" line item as zero resulting in the "Total Amount Due" line item being overstated by \$974,675. As a result of the reporting error, a cash advance was received in the same amount as the overstated amount per the report. We noted the following differences in the amount reported for the "Total Amount Due" line item:

Quarter Ended	Amount Reported	Correct Amount	Difference
March 31, 2011	\$2,310,713	\$1,336,038	\$974,675

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure quarterly expenditure reports accurately report the amount of cash requested for reimbursement.

In discussing these conditions with University officials, they stated that this was due to a clerical error.

Failure to prepare accurate reports inhibits the ability of the grantor to properly monitor and evaluate the performance of the program activities. (Finding Code 11-21, 10-25, 09-21)

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Recommendation:

We recommend the University implement procedures to ensure the quarterly expenditure reports are accurately prepared.

University Response:

Accepted. A clerical error was made on the March 31, 2011, report resulting in the understatement of the amount previously drawn on the noted award. This error was corrected on the June 30, 2011, report. As of the close of June 30, 2011, the expenditures to date were more than the cash collected to date thereby leaving the University in a deficit position.

Finding 11-22 Failure to Follow Property Management Regulations

The University did not consistently follow property management regulations relative to equipment purchased with federal funding from the Research and Development Cluster and Cooperative Extension Services programs.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

The University conducts research and extension services in multiple locations on each of its three campuses, as well as at off-campus locations throughout the State. Equipment items purchased with federal funds are utilized at each of these locations. The University identifies all equipment in its property management records with individually assigned asset numbers and each individual asset record includes the specific location of the asset, the federal award general ledger account number which funded the purchase of the asset, and other required information. An asset tag with the assigned asset number is affixed to each asset in accordance with University policy and State Property Management Regulations.

During our physical observation of 40 pieces of equipment purchased with Research and Development Cluster funds and 40 pieces of equipment purchased with Cooperative Extension Services Program funds, we noted the following:

- Six items included on the Research and Development Cluster inventory list (with a cost value of \$215,861) and one item included on the Cooperative Extension Services inventory list (with a cost value totaling \$645) did not have visible property control tags affixed to the assets at the time of our procedures.
- One item included on the Cooperative Extension Services inventory list (with a cost value totaling \$6,499) was not located by the Urbana campus at the time of our procedures.

As of June 30, 2011, the cumulative cost value of equipment purchased with Research and Development Cluster and Cooperative Extension Services Program funds was \$209,737,863 and \$1,944,429, respectively.

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110) requires that equipment be used in the program which acquired it or, when appropriate, other federal programs. Additionally, OMB Circular A-110 requires the University to implement an appropriate control system to safeguard equipment and to ensure equipment is adequately maintained.

Additionally, OMB Circular A-110 requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure equipment inventory records are accurate and equipment items are properly tagged.

In discussing these conditions with University officials, they stated extensive policies and procedures are in place to ensure control over equipment. Regarding cases of inventory tags not being affixed to certain assets, University management stated that four of these instances can be challenging to manage. They noted that some instances of a missing tag related items with hand written tags which is in accordance with University policy due to nature of the tag. For two other items, the tags were misplaced and are in the process of being replaced. Also with regards to the item that could not be located, the University stated that the item was reported missing and the University is in the process of updating its status within the system.

Failure to maintain accurate property records and tag equipment purchased with federal funds prohibits the University from properly safeguarding and maintaining equipment and may result in federal programs not receiving the appropriate share of proceeds from the disposals of equipment purchased with federal funds. (Finding Code 11-22, 10-26, 09-24)

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Recommendation:

We recommend the University implement procedures to ensure property records accurately reflect equipment onhand and to ensure equipment items are properly tagged in accordance with property management regulations.

University Response:

Accepted.

For the Urbana campus:

P10F46497 -- The unit is in the process of replacing the missing PTAG.

P10F17130 – The item was reported as missing and presumed stolen in 2009 with a police report filed at that time. The University property records were not updated at that time to reflect the status. The University record is in the process of being updated to reflect the status.

L10C88818—The PTAG most likely fell off of the ultra sound unit as it was being transported for use in many different locations. A replacement PTAG will be affixed on the unit.

For the Chicago Campus:

The University disagrees that five items noted in the finding did not have visible property control tags affixed to the assets at the time of the firm's testing procedures. Property control tags were affixed to the equipment reviewed on the Chicago campus. As a key internal control feature, the system cannot generate a duplicate tag, therefore, if a tag needs to be replaced, an official, system-generated generic tag is generated and the appropriate control number is either handwritten or typed and affixed to the equipment. The five pieces of equipment noted had hand-written, compliant tags affixed to the equipment in accordance with property management regulations, University policy, and State Administrative Code, Section 5010.210.

The University has procedures to ensure property records accurately reflect equipment on-hand and to ensure equipment items are properly tagged in accordance with property management regulations.

Auditors' Comment:

As stated in the finding above, property control tags were not affixed to the assets identified as exceptions. We were able to corroborate the assets tested were included on the inventory listing using the asset serial numbers. Additionally, our understanding of the University's property tagging procedures is that handwritten property tags are only used as a temporary measure until a permanent tag can be generated; however, the University's property management policy does not specifically address the use of temporary or handwritten tags.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Federal Agency: US Department of Education (USDE)

US Department of Health and Human Services (USDHHS)

Program Name: Student Financial Assistance Cluster

CFDA # and Program Expenditures: 84.007/84.033/84.038/84.063/84.268/84.375/84.376/84.379

93.264/93.342/93.364/93.925 (\$614,016,160)

Award Numbers: P015B100095/ P015A100095/ P015B100146/ P015B100065/ P015B100183/ P015B100043/

P015B060115/P015B060171/P015B060091/P015A030141 (84.007/84.033/84.038/

84.063/84.268/84.375/84.376/84.379 93.264/93.342/93.364/93.925)

Questioned Costs: \$1,391

Finding 11-23 Failure to Properly Determine SFA Awards in Accordance with Program Regulations

The University disbursed funds in excess of program award limits at its Chicago campus.

During our testwork over 75 students (25 from the Urbana campus and 50 from the Chicago campus) who were awarded and disbursed student financial aid totaling \$726,969, we noted one graduate student from the Chicago campus who received a subsidized direct loan in excess of the annual loan limit of \$8,500 for which the student was eligible. The student was awarded subsidized loan funds in the amount of \$9,891 during the 2010-2011 academic year resulting in an over-award of \$1,391. Total aid awarded to this student during the year ended June 30, 2011 was \$19,158.

The University awarded approximately \$614,016,160 in federal financial assistance to students.

According to 34 CFR 685.203, the total amount a graduate or professional student may borrow for any academic year of study under the Federal Direct Stafford/Ford Loan Program in combination with the Federal Stafford Loan Program may not exceed \$8,500. Additionally, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving awards to establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal control should include procedures to ensure student awards are packaged in accordance with program regulations.

In discussing these conditions with University officials, they stated the cause was human error.

Failure to properly determine eligibility and package financial aid in accordance with federal regulations may result in students receiving awards for which they are not eligible which would results in unallowable costs or may result in students not receiving awards that they may be entitled to receive. (Finding Code 11-23, 10-27)

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Recommendation:

We recommend the University review its current procedures for awarding federal assistance and implement any changes necessary to ensure student financial assistance is awarded in accordance with federal regulations.

University Response:

Accepted. The student's award has been corrected and the appropriate funds have been returned to the U.S. Department of Education. The student was packaged based upon a Borrower Based Academic Year (BBAY), rather than the Standard Academic Year (SAY) and staff incorrectly calculated their Stafford Loan eligibility. Procedures have been reviewed and updated to try to minimize such mistakes in the future.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Federal Agency: US Department of Education (USDE)

US Department of Health and Human Services (USDHHS)

Questioned Costs: Cannot be determined

Finding 11-24 Failure to Properly Complete Required Verification Procedures

The University did not properly perform verification procedures for students at the Chicago campus.

In order to validate the accuracy of information reported by applicants for financial aid, USDE requires schools participating in federal student financial assistance programs to perform procedures to verify the accuracy of student financial and household information used to compute the expected family contribution (EFC) of each applicant. The EFC is used by the schools to determine the types and amounts of federal student financial aid each student is eligible to receive. USDE selects students for verification and schools are required to establish and follow a verification policy that complies with the federal regulations.

The University verifies the Institutional Student Information Records (ISIR) for all students selected by the USDE central processor at its Urbana and Springfield campuses and operates a quality assurance program at its Chicago campus. As such, the financial aid system has been designed to place a hold flag on the student awards for all students selected by the central processor for verification at the Urbana and Springfield campuses and for students meeting the verification selection criteria established by the University at the Chicago campus. The hold flag prevents disbursement of financial aid awards until the flag is manually removed by a financial aid counselor upon completion of the verification procedures.

During our testwork over 50 students selected for verification (25 from Urbana and 25 from Chicago), we noted the Institutional Student Information Record (ISIR) for one Chicago student reported untaxed income that was not verified by the University. Specifically, the ISIR reported untaxed income of \$2,400 which resulted in an overstatement of the student's expected family contribution by \$214.

During the year ended June 30, 2011, there were 10,763 students (6,401 at the Urbana campus and 4,362 at the Chicago campus) subject to verification procedures.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

An institution shall require each applicant whose application is selected to verify items specified in 34 CFR section 668.56. The institution shall also require applicants to verify any information used to calculate expected family contribution (EFC) it has reason to believe is inaccurate.

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include establishing procedures to ensure required documentation used to verify student information is obtained and evaluated prior to disbursement of Title IV funds. Additionally, corrections should be made as required by federal regulations and documentation of the performance of verification procedures should be maintained in the student's financial aid file.

In discussing these conditions with University officials, they stated the cause was human error.

Failure to properly perform verification procedures in accordance with federal regulations may result in students receiving awards for which they are not eligible which would results in unallowable costs or may result in students not receiving awards that they may be entitled to receive. (Finding Code 11-24, 10-28, 09-25)

Recommendation:

We recommend the University implement additional procedures to ensure adequate supporting documentation is obtained and evaluated by financial aid counselors prior to disbursing federal funds to students selected for verification.

University Response:

Accepted. The student's FAFSA was updated and the award was revised accordingly. Staff incorrectly looked at the wrong tax line on the parents tax form. There was \$2400 present on line 20b, rather than 19. If the amount was on line 19 it would have been considered untaxed and it would have matched the FAFSA. However, the \$2400 was on line 20b and thus is not considered untaxed income. Procedures have been reviewed and updated to try to minimize such mistakes in the future.

Questioned Costs: None

Finding 11-25 <u>Inaccurate and Untimely Reporting of Student Status Changes</u>

The University did not submit changes in the enrollment status of borrowers under the Federal Direct Loan (Direct Loan) program within required timeframes.

The University is required to report changes in a student's enrollment status to the National Student Loan Data System (NSLDS) on a periodic basis to ensure student borrowers of the Direct Loan programs begin repaying their federal loans in a timely manner. During our testwork over 65 borrowers (25 from the Urbana campus, 25 from the Chicago campus, and 15 from the Springfield campus) under the Direct Loan program that graduated, withdrew, or dropped out during the fiscal year, we noted the following:

- One status change for withdrawn students under the Direct Loan program at the Urbana campus was inaccurately reported to National Student Loan Data System (NSLDS) as full-time (F), half-time (H), or less than half-time (L) status rather than as withdrawn (W) status. Upon further review, we noted this item relates to a student whose withdrawal was not processed until after the last status update in Spring 2011.
- One status change for withdrawn students under the Direct Loan Program at the Chicago campus was not reported to National Student Loan Data System (NSLDS). Upon further review, we noted that the university did not have the student's social security number on file and as such, was not reporting the student's status.
- Two status changes for withdrawn students under the Direct Loan program at the Chicago campus were inaccurately reported to National Student Loan Data System (NSLDS) as full-time (F), half-time (H), or less than half-time (L) status rather than as withdrawn (W) status. Upon further review, we noted these items relate to students whose withdrawals were not processed until after the last status update in Spring 2011.

The University disbursed loans totaling \$477,562,634 to borrowers (\$230,979,262 at the Urbana campus, \$222,845,153 at the Chicago campus, and \$23,738,219 at the Springfield campus) under the Direct Loan program during the year ended June 30, 2011.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

According to 34 CFR 685.309, the University is required to notify the NSLDS of changes in a student borrower's status within 30 days of discovering the change, unless the University expects to complete its next Roster File within 60 days. In addition, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,* requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure student status changes are accurately reported in a timely manner.

In discussing these conditions with University officials, they stated the Office of Records and Registration reports enrollment status information for the campus. These conditions were as a result of the timing of the receipt of the student status change documentation in relation to the transmission date to the National Student Clearinghouse.

Failure to accurately report student status changes to NSLDS in a timely manner may result in Direct Loan borrowers not entering repayment status at the appropriate time. (Finding Code 11-25, 10-29, 09-27)

Recommendation:

We recommend the University implement procedures to ensure submissions to NSLDS are accurately reported within the required timeframe for all Direct Loan borrowers.

University Response:

Accepted. The Office of the Registrar already has a policy in place to identify and report backdated withdrawals. This policy will be reviewed with staff.

Questioned Costs: None

Finding 11-26 Failure to Obtain Written Agreements with Third Party Institutions

The University did not obtain written agreements for all third party institutions as required by federal regulations.

The University has several arrangements whereby portions of the University's academic programs are provided by other institutions of higher education. Such arrangements primarily consist of foreign exchange programs operated by the University. During our testwork over 48 students (40 from Urbana and 8 from Chicago) participating in study abroad programs, we noted a written agreement was not available for two institutions attended by students from the Urbana campus. Additionally, we noted written agreements were not executed with 10 different institutions prior to Urbana students attending the various institutions.

According to Volume 2 Chapter 7 of the 2010-2011 Federal Student Aid Handbook, a study abroad program must be part of a written contractual or consortium agreement between two or more schools. In addition, OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include ensuring written agreements are obtained when required.

In discussing these conditions with University officials, they stated procedures will be developed to ensure that written agreements are in place.

Failure to obtain required written agreements with all third party institutions with which the University offers educational programs may result in student financial aid recipients participating in programs with ineligible institutions. (Finding Code 11-26, 10-30, 09-28)

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Recommendation:

We recommend the University verify written agreements are in place for all third party institutions as required by federal regulations.

University Response:

Accepted. The University has worked diligently over the past year to ensure that written agreements are in place for all third party institutions and to develop procedures to check that the agreements are in place as part of the financial aid awarding process.

Schedule of Findings and Questioned Costs

Ouestioned Costs: None

Finding 11-27 <u>Untimely Submission of Financial Reports</u>

The University does not have a process in place to ensure financial reports are prepared and submitted within required timeframes.

The University is required to prepare various periodic financial reports relative to awards under the Research and Development Cluster. These reports are required to be prepared at various timeframes based upon the terms and conditions of the awards. During our testwork over the financial reports submitted during fiscal year 2011, we noted two reports at the Chicago campus (out of 44 tested) related to the Research and Development Cluster were not submitted by the reporting deadline. Delays in the submission of these reports ranged from 7 to 65 days.

In addition, we noted the University does not have consistent procedures for tracking the due dates and submission of all federal reports. Currently, reporting responsibilities are assigned to different sections within the University's Grant and Contracts Offices based upon the federal awarding agency. The individuals within each reporting section have developed a variety of formal and informal methods for tracking and reporting

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

requirements and deadlines. As a result, the University does not have the ability to monitor whether reports are prepared and submitted in a timely manner.

OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations* (OMB Circular A-110) and the grant agreements, contracts, and other award documents for the major programs identified above, require the University to prepare periodic financial reports. The instructions for the financial reports require quarterly and semi-annual reports to be submitted within 30 days of period end and annual reports to be submitted within 90 days of period end. Additionally, OMB Circular A-110 also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure financial reports are submitted within required timeframes.

In discussing these conditions with University officials, they stated the reports submitted late were a result of human error.

Failure to prepare reports in a timely manner inhibits the ability of the federal agencies and pass through entities to properly monitor and evaluate the performance of the programs. (Finding Code 11-27, 10-32)

Recommendation:

We recommend the University implement procedures to ensure all financial reports are submitted within the established deadlines. We also recommend the University implement standardized procedures to monitor reporting requirements and submissions.

University Response:

Accepted. The University has procedures to ensure financial reports are submitted within the established deadlines. Occasionally, there are extenuating circumstances that may prohibit submission of these reports by the stated due date. In these cases, delayed submissions are a result of additional efforts to ensure accurate reporting.

The Urbana campus agrees that it does not have consistent procedures for tracking the due dates and submission of all federal reports. These differences are due to the individual needs of each work section. There were no untimely report exceptions cited for the Urbana campus in the audit. The University believes this evidence speaks to the effectiveness of our procedures, and that we do have the ability to monitor and ensure that reports are prepared and submitted in a timely manner.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Federal Agency: US Department of Health and Human Services (USDHHS)

Program Name: Temporary Assistance for Needy Families Cluster

CFDA # and Program Expenditures: 93.558 (\$5,770,781)

Award Numbers: 81X6957000 (93.558)

Questioned Costs: None

Finding 11-28 Inadequate Support for Cash Draws

The University did not have accounting records to support reimbursement requests for the Temporary Assistance for Needy Families (TANF) Cluster.

The University draws cash for administrative expenditures and scholarship expenditures related to the TANF Cluster on the reimbursement basis. The University's procedures for calculating reimbursement based draws generally are based upon expenditures paid and reported in the general ledger. During our testwork over cash draws performed by the Springfield campus for the TANF Cluster, we noted the University requested reimbursement of amounts in excess of expenditures reported in the general ledger as follows:

Draw Date	Draw Type	Draw Amount	Cumulative Expenditures in GL	Previous Amount Drawn	Amount Overdrawn
11/22/10	Administrative	\$5,000	\$ -	\$10,000	\$15,000
1/4/11	Administrative	5,000	_	15,000	20,000
	Scholarship	36,433	69,316	59,864	26,981

Upon further investigation of these differences, we noted there is a lag between the time expenditures are incurred and when they are reported in the general ledger due to the decentralized nature of the scholarship programs operations in the Financial Aid Offices.

OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations* (OMB Circular A-110), requires the University to minimize the time elapsing between the transfer of funds from the federal government and the payment of program expenditures. OMB Circular A-110 also requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure reimbursement requests are properly supported by the University's accounting records.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

In discussing these conditions with University officials, they stated procedures to ensure expenditures are recorded in the general ledger were implemented late in the fiscal year.

Drawing federal funds based upon information other than the University's official accounting records may result in funds being drawn in advance of the University's immediate cash needs. (Finding Code 11-28, 10-33)

Recommendation:

We recommend the University implement procedures to ensure expenditures are recorded in the general ledger as they are incurred to ensure the reimbursement requests are adequately supported by the University's official accounting records.

University Response:

Accepted. This is a repeat finding from fiscal year 2010. In response to the prior year's audit recommendation, the University of Illinois at Springfield (UIS) Grants and Contracts Post-Award Office, in conjunction with the UIS Financial Assistance Office, completed the *GCA 203-09 Expenditure Posting Procedures for the TANF Grant* procedures and documentation. The implementation of these procedures began on April 1, 2011. We believe that the procedures ensure expenditures are recorded in the general ledger as they are incurred and the reimbursement requests are adequately supported by the University's official accounting records.

Questioned Costs: None

Finding 11-29 Inadequate Cash Draw and Reimbursement Request Controls

There is no documentation to substantiate that a formal review and approval of cash draw and reimbursement request calculations are performed.

The University uses several different methods to calculate the amount for its cash draws and reimbursement requests based upon the specific funding methods permissible under each of its federal programs. The cash draw and reimbursement request calculations for each program are prepared by staff in the Grants and Contracts Office based upon queries of expenditure information reported in the University's general ledger; however, there was no documented supervisory review of the cash draw and reimbursement request calculations prior to University personnel requesting cash from the federal government.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110) requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include a supervisory review of all cash draw and reimbursement request calculations prior to requesting funds from a federal agency.

In discussing these conditions with University officials, they stated there are adequate controls in place for all letter of credit cash draws and reimbursement method billings.

Failure to perform supervisory reviews of cash draw and reimbursement request calculations may result in unapproved and inaccurate cash draw and reimbursement request calculations leading to noncompliance with cash management regulations. (Finding Code 11-29, 10-34, 09-33)

Recommendation:

We recommend the University implement procedures to ensure cash draw and reimbursement request calculations are reviewed and approved prior to requesting funds from the federal government.

University Response:

Not Accepted. The University has effective controls in place for cash draw calculations and cost reimbursement billings, which include steps to review the processes and amounts calculated in compliance with the regulatory requirements of OMB Circular A-110. Throughout the entire process there is a clear segregation of duties. The responsibility for LOC cash draws and reimbursement billings is assigned to staff with the appropriate authority, knowledge, and skill level. Additionally, Cooperative Extension Service Program draws are handled through the University Accounting and Financial Reporting Office, not the Grants and Contracts Office.

The University sought guidance from the Department of Health and Human Services (HHS) in coordination with the Department of Education and the National Science Foundation. This resulted in a Management Decision Letter (MDL) issued on February 14, 2011. According to the MDL, "The audit finding is not sustained based on our review..." The University subsequently received a letter on March 10, 2011, from HHS that states "The purpose of this communication is not to reverse our decision(s) but to clarify the nature of the finding and the direction that the University needs to take in correction of the issue(s)". The University has been actively engaged in collaboration with the agencies to find resolution on this issue.

Auditors' Comment:

We believe effective internal control should include a documented review and approval of cash draw calculations and we were unable to obtain evidence that the cash draw calculations had been reviewed and approved by an individual other than the preparer.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Finding 11-30 *Inadequate Approval Controls over Financial Reporting*

The University does not adequately document the performance of supervisory reviews of financial reports submitted for its federal programs.

The University prepares and submits a variety of financial reports using standard forms as prescribed by the granting Federal agencies. The financial reports are prepared by staff in the Grants and Contracts Office based upon queries of cash receipt and expenditure information reported in the University's general ledger. The University's controls over reporting include a supervisory review of each report prior to submission. During our review of the reports submitted by the Urbana campus, we noted the signature of the Director of Grants and Contracts was used to evidence approval of required financial reports; however, the report reviews are performed by supervisors within the Office of Grants and Contracts, not the Director. Since the supervisor did not sign his or her own name, we were unable to determine whether an individual other than the preparer reviewed the report prior to submission to the federal awarding agency. Additionally, during our review of 11 financial reports submitted by the Chicago campus, we noted 4 reports that did not contain documented evidence of a supervisory review.

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110) requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include a documented supervisory review to ensure the accuracy of all financial reports submitted to the federal agencies.

In discussing these conditions with University officials, they stated the University has effective internal controls. A supervisory review is done prior to the submission of financial status reports; however, formal documentation of the review is not required. OMB Circular A-133 requires the University to establish and maintain internal control designed to provide reasonable assurance that Federal awards are managed in compliance with federal laws, regulations, and program compliance requirements. University officials stated that there is no specific requirement for documentation of a supervisory review.

Failure to perform supervisory reviews of financial reports may result in the submission of inaccurate reports which would inhibit the ability of the grantor to properly monitor and evaluate the performance of the program activities. (Finding Code 11-30)

Recommendation:

We recommend the University implement procedures to ensure the financial reports submitted for its federal awards are reviewed and approved by someone other than the preparer.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

University Response:

Not Accepted. The University has effective internal controls. A supervisory review is done prior to the submission of financial status reports; however, formal documentation of the review is not required. OMB Circular A-133 requires the University to establish and maintain internal control designed to provide reasonable assurance that Federal awards are managed in compliance with federal laws, regulations, and program compliance requirements. There is no specific requirement for documentation of a supervisory review.

Auditors' Comment:

We believe effective internal control should include a documented review and approval of required financial reports and we were unable to obtain evidence that the financial reports had been reviewed and approved by an individual other than the preparer.

Questioned Costs: None

Finding 11-31 *Inaccurate Award Records*

The University does not have an adequate process to ensure grant award amounts are accurately recorded in the accounting system.

The University utilizes an accounting system to track and maintain the official financial records of the University. As Federal awards are granted to the University, individuals from the University's pre-award office establish ledger accounts for each award and enter the grant's details into the accounting system. During our review of 42 Research and Development Cluster grant awards, we noted the award amounts recorded in the accounting system for two grants did not agree to the award documents. Specifically, we noted the following differences between the accounting system and the grant award documents:

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – Federal Compliance

Grant Number	Amount on Award Document	Amount in University Accounting System	Difference
E4908	\$10,321,467	\$ 9,906,903	\$414,564
E4539	\$4,810,286	\$ 4,810,299	(13)

OMB Circular A-110, Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A-110), requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include maintaining accurate financial records for grants received by the Federal government.

In discussing these conditions with University officials, they stated these were data entry errors.

Failure to accurately record award information in the accounting system may result in overspending of Federal awards, inaccurate reimbursement requests, and inaccurate financial reporting. (Finding Code 11-31)

Recommendation:

We recommend the University implement procedures to ensure award amounts recorded in the University's accounting system agreed to award documents received from Federal agencies.

University Response:

Accepted. The University has procedures and system-generated error reports to ensure award amounts recorded in the University's accounting system agree to award documents received from Federal agencies. Data entry errors occurred for the two awards identified.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

Finding 11-32 – Contracts and Real Estate Leases Not Properly Executed

The University has not established adequate internal controls over contracts and leases to ensure they contain all necessary provisions, are properly executed prior to performance, and are filed with the State of Illinois, Office of the Comptroller on a timely basis.

During our review of 60 contracts executed during the year ended June 30, 2011, we noted the following:

- 57 contracts did not contain the signature of the employee signing on behalf of the University Comptroller.
- Three contracts were not signed by University's Chief Executive Officer and/or Chief Legal Counsel.
- Six contracts were executed subsequent to performance of the contract. The contract execution dates ranged from 3 to 160 days after the beginning of the contract start date.
- Four contracts were not published in the Illinois Procurement Bulletin.
- Three contracts did not include disclosures of financial interest statements.
- One contract did not include any of the required certifications.
- One contract did not include the Domestic Products certification.
- Nine contracts were not filed timely with the Office of the Comptroller. The late filings ranged from one day to 28 days late.

During our review of 40 real estate leases executed during the year ended June 30, 2011, we noted the following

- Five leases were executed after the lease term began. The lease execution dates ranged from two days to 82 days after the beginning of the lease term.
- One Real Estate Lease Disclosure form was completed 14 days after the beginning of the lease term.
- Two leases were not filed timely submitted with the Office of the Comptroller. The late filings ranged from one day to two days late.

During our review of 17 emergency purchases awarded during the year ended June 30, 2011, we noted the affidavit for one emergency purchase was filed with the Auditor General of the State of Illinois 15 days after the required time frame.

The Illinois Procurement Code (30 ILCS 500 et seq.) and Statewide Accounting Management System (Procedure 15.20 et seq. and 15.10.40) requires contracts and real estate leases to contain certain signatures, clauses, and certifications and also require State agencies to file contracts for professional and artistic services exceeding \$5,000 and all other contracts and leases exceeding \$10,000 with the State Comptroller within 15 calendar days after execution. The Emergency Purchases Section (c) Affidavits of the Illinois Procurement Code (30 ILCS 500/20-30) states that a chief procurement officer shall file affidavits with the Procurement Policy Board and the Auditor General of the State of Illinois within 10 days after the procurement setting forth the amount expended, the name of the contractor involved, and the conditions and circumstances requiring the emergency procurement. Further, the State Finance Act (30 ILCS 105/9.02) states that any new contract, contract renewal, order against a master contract, or any contract amendment of \$250,000 or more in a fiscal year, shall be signed or approved in writing by the agency's chief executive officer, chief legal counsel and chief fiscal officer.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

In addition, the University of Illinois Business and Financial Policies and Procedures (Section 2.3) and good business practices require all contracts and leases to be fully executed prior to the beginning of the lease term or the commencement of services. Additionally, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001), requires the University to establish and maintain a system or systems of internal fiscal and administrative controls, which shall provide assurance that: (1) resources are utilized effectively, and in compliance with applicable law (2) obligations and cost are in compliance with applicable law; (3) funds, property, and other assets and resources are safeguarded against waste, loss, unauthorized use, and misappropriation; (4) revenues, expenditures, and transfers of assets, resources or funds applicable to operations are properly recorded and accounted for to permit preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources; and (5) fund held outside the State Treasury are managed, used, and obtained in strict accordance with the terms of their enabling authorities and that no unauthorized funds exist. The University's system of internal controls should include procedures to ensure contracts and leases contain all necessary provisions and are properly executed prior to the performance.

In discussing these conditions with University officials, they stated exceptions can be attributed to changes in requirements for documents, human error, and documents not being received in the Contract Records Office in a timely manner.

Failure to fully execute a contract or real estate lease prior to the commencement of services or lease term leaves the University vulnerable to unnecessary liabilities and potential legal issues. In addition, failure to include all appropriate signature, clauses, and certifications in contracts and leases or file contracts and real estate leases with the Office of the Comptroller and emergency purchase affidavits with the Auditor General of the State of Illinois on a timely basis results in noncompliance with State statutes and regulations (Finding Code 11-32, 10-35, 09-35, 08-09, 07-10, 06-07, 05-05, 04-05, 03-06)

Recommendation

We recommend the University establish appropriate procedures to ensure all contracts and leases are completed, approved and properly executed prior to the start of the services and lease term. Further, the University should review procedures to ensure all appropriate signatures, clauses, and certifications are obtained prior to execution for all contracts and lease agreements and all applicable contracts and real estate leases are filed with the Office of the Comptroller and emergency purchase affidavits with the Auditor General of the State of Illinois in accordance with the State statutes and related guidelines.

University Response:

Accepted. The University will continue to examine and improve procedures to ensure contracts and leases are properly approved and executed prior to the start of the agreement, include all necessary documents, and are filed on a timely basis.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

Finding 11-33 – Failure to Follow Time Reporting Requirements

The University does not require all employees to submit time sheets as required by the State Officials and Employees Ethics Act. The University does not require faculty employees to submit time sheets as required by the State Officials and Employees Ethics Act.

During our testing of payroll, we selected 60 employees across all three campuses and noted that 18 faculty employees did not file timesheets as required by the State Officials and Employees Ethics Act. Based upon inquiry of the University management, employees classified as board members and faculty continue to generally track their time using a "negative" timekeeping system whereby the employee is assumed to be working unless noted otherwise.

The State Officials and Employees Ethics Act (the Act) (5 ILCS 430/1-5) defines "State agency" to include "public institutions of higher learning..." and defines "State employee" to be "any employee of a State agency." The Act required the Illinois Board of Higher Education (IBHE), with respect to State employees of public universities, to adopt and implement personnel policies. The Act (5 ILCS 430/1-5) also states, "The policies shall require State employees to periodically submit time sheets documenting the time spent each day on official State business to the nearest quarter hour; contractual State employees may satisfy the time sheets requirement by complying with the terms of their contract, which shall provide for a means of compliance with this requirement." The IBHE adopted personnel policies for public universities on February 3, 2004 in accordance with the Act. The University has not incorporated these policies into the University's policies.

In discussing these conditions with University officials, they stated the implementation of the system for positive time reporting for University Academic Professionals and Exempt Civil Service staff is in force since the beginning of fiscal year 2011. All Non-Exempt Civil Service employees throughout the University have been reporting their time in accordance with the State University Civil Service System and all faculty report time not worked.

Failure to follow the time reporting requirements of the Act results in noncompliance with State statute. (Finding Code 11-33, 10-37, 09-40, 08-11, 07-11, 06-06, 05-06)

Recommendation

We recommend the University implement procedures to ensure all employees submit time sheets as required by the Act.

University Response:

Accepted. We are working with our faculty groups across the three campuses towards completion of the plan initiated in November 2008.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

Finding 11-34 – Inaccurate Inventory Records

The University does not have an adequate process to measure inventory balances as of fiscal year-end (i.e. balance sheet date).

The University performs annual physical inventory counts for large balances of goods and supplies held on hand such as the University bookstores books and merchandise, hospital supplies, medical center pharmaceuticals, general office supplies, and telecommunication supplies. The results of these physical inventory counts are used to record inventory balances so that amounts reported at year-end are based on actual quantities on hand as of the balance sheet date. During our testwork over physical inventory counts at the Materials Management department of the University of Illinois Hospital, the Chicago Academic Computing and Communication Center, the Urbana Campus Information and Technologies and Educational Services, and the University bookstores, we selected a sample of 220 inventory items (totaling \$1,090,688) that were counted at year-end and performed test counts, in which we noted the following:

- One item (totaling \$5,660) at the bookstores did not agree with the department's inventory records resulting in overstatements of \$118.
- One item (totaling \$1,412) at the Materials Management department did not agree with the department's inventory records resulting in understatement of \$471.
- Three items (totaling \$530) at the Chicago Academic Computing and Communication Center did not agree with the department's inventory records resulting in overstatements of \$161.
- Two items (totaling \$491,154) at the Chicago Academic Computing and Communication Center did not agree with the department's inventory records resulting in understatements of \$56,147.
- The final inventory records for eight items (totaling \$491,208) at the Chicago Academic Computing and Communication Center did not agree with the year-end inventory records resulting in overstatements of \$169,561.
- Three items (totaling \$5,315) at the Urbana Campus Information and Technologies and Educational Services campus did not agree with the department's inventory records resulting in overstatements of \$380.

Inventory balances of goods and supplies held on hand by the University totaled \$31,187,000 as of the year ended June 30, 2011.

The Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the Agency to establish and maintain a system or systems of internal fiscal and administrative controls, which shall provide assurance that revenues, expenditures, and transfers of assets, resources, or funds applicable to operations are properly recorded and accounted for to permit the preparation of accounts and reliable financial and statistical reports and to maintain accountability over the State's resources. Effective internal controls should include a process of performing accurate inventory counts so that amounts reported at year-end are based on actual quantities on hand as of balance sheet date.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

In discussing these conditions with University officials, they stated the differences were due to data entry errors and oversight during the physical counts.

Failure to perform accurate physical inventory counts of actual on quantities on hand at year-end results in inventory balances being inaccurately reported in the University's financial statements at year-end. (Finding Code 11-34, 10-38)

Recommendation

We recommend the University review its process for performing physical inventory counts and consider any changes necessary to ensure physical inventory counts are accurate and amounts reported at year-end are based on actual quantities on hand as of balance sheet date.

University Response:

Accepted. The University will implement the necessary corrective action to address the recommendation made in this finding.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

Finding 11-35 – Failure to Maintain Supporting Documentation for Agency Workforce Report

The University did not accurately complete the Agency Workforce Report and did not maintain adequate supporting documentation for the workforce data included in the report.

The Agency Workforce Report is submitted annually to the Governor's Office and Secretary of State as part of the State Employment Records Act. The report is designed to provide data for the calendar year relative to: (1) the number and income levels of University employees, (2) the number of employees by gender, (3) the number of employees by minority group, and (4) the number of physically disabled employees. The University generates the report directly from the Enterprise Data Warehouse which contains employee level data. During our review of the Agency Workforce Report submitted during the year, we noted the University created the report based on a query of the Enterprise Data Warehouse run on a specific date. However, during our testwork over the report we noted the following exceptions:

- Because detail of 159 physically disabled employees included on the report was not maintained, we were unable to verify the accuracy of those amounts on the report;
- Of the 199 reporting categories in the report, 65 (33%) of the reporting categories did not agree to the detail of individuals from the query. The discrepancies in the number of individuals reported and the detail of individuals from the query ranged from one individual to nine individuals.

The State Employment Records Act (5 ILCS 410/20) requires the University to collect, classify, maintain, and report all information required by this Act to the Governor's Office and Secretary of State annually. The Illinois State Auditing Act (30 ILCS 5/3-2.2) requires the University to prepare and file with the Governor and the Office of the Secretary of State corrected reports covering the period affected by the noncompliance within 30 days of the release of the audit by the Auditor General. In addition, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the University to maintain a system of fiscal and administrative controls. Effective internal controls should include maintaining adequate and accurate supporting documentation for all reports submitted to the Governor's Office and the Secretary of State.

In discussing these conditions with University officials, they stated the errors were due to the system report used to prepare the Agency Workforce Report not being updated to correspond to new reporting requirements and data entry errors.

Failure to maintain adequate and accurate supporting documentation inhibits the ability to perform an audit of the report and results in inaccurate data included in the annual report. (Finding Code 11-35, 10-40, 09-44)

Recommendation

We recommend the University implement procedures to ensure workforce data included in the Agency Workforce Report is accurate and that adequate supporting documentation is maintained to support data included in the report. We further recommend the University submit corrected reports to the Governor and the Office of the Secretary of State in accordance with the State Auditing Act.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

University Response:

Accepted. The University has corrected the oversight of documenting physically disabled individuals, and will develop a corrective action plan to improve the testing process. Corrected reports were sent to the Governor and the Office of the Secretary of State on January 19, 2012.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

Finding 11-36 – Use of University Vehicles

The University did not report certain automobile accidents involving University vehicles to the Department of Central Management Services in a timely manner.

During our testing of the operation of University vehicles, we noted the University reported 159 accidents involving University vehicles to the Department of Central Management Services (CMS) during fiscal year 2011. Of the 134 accidents reported by the Urbana campus, 25 (19%) were not reported timely and ranged from one to 45 days late. Of the 25 accidents reported by the Chicago campus, 6 (24%) were not reported timely and ranged from one to 41 days late.

The Illinois Administrative Code (Title 44, Subtitle D, Chapter 1, Part 5040.520) states a driver of a state owned or leased vehicle which is involved in an accident of any type shall report such accident to the appropriate law enforcement agency and to CMS by completing the "Motorist's Report of Illinois Motor Vehicle Accident" form (SR 1). For all accidents, the Form SR 1 is to be completed as soon as possible and submitted to the office of the current insurance carrier. In no case is this report to be completed later than three (3) days following an accident.

Additionally, University of Illinois Office of Business and Financial Services Policies and Procedures (Section 15.3) state that the responsible personnel at each campus "must deliver the accident report to the CMS within seven calendar days of the accident in all cases." Finally, the Illinois Administrative Code (Title 44, Subtitle D, Chapter 1, Part 5040.400) states that all state-owned vehicles shall undergo regular service in order to maintain the vehicles in road worthy, safe, operating condition and appropriate cosmetic condition and the driver should check oil, coolant, and battery water levels regularly.

In discussing these conditions with University officials, they stated these exceptions are due to 1) the campus offices not knowing about reportable accidents until the units report them, after which time is needed to gather the information required by CMS and 2) misunderstanding by employees as well as their supervisors due to their unfamiliarity with University policy.

Failure to report automobile accidents to the Department of Central Management Services in a timely manner may cause the University to be denied coverage and result in additional liabilities for the University. (Finding Code 11-36, 10-41, 09-46, 08-10)

Recommendation

We recommend the University implement procedures to ensure that accident reports are submitted to the Department of Central Management Services in a timely manner. We also recommend the University ensure that policies and procedures are clearly understood and followed by all personnel responsible for the oversight of University vehicles within each department.

University Response:

Accepted. The University continues to disseminate information and helpful educational tools to ensure employees know to promptly report auto accidents. In addition the University will send letters to personnel responsible for the oversight of University vehicles when there are violations of required policies and procedures.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

Current Findings – State Compliance

Finding 11-37 – Failure to Comply with Higher Education Veterans Act (Act)

The University did not fully comply with the Higher Education Veterans Service Act (Act).

During our review of the University's compliance with the Act, we noted the following:

- The University of Illinois Chicago (UIC) did not post the completed survey of the services and programs provided for veterans, active duty military personnel, and their families on the homepage of the campus' Internet link. In addition, UIC did not submit a copy of the survey to the Department of Veterans' Affairs; President and Minority Leader of the Senate and the Speaker and Minority Leader of the House of Representatives; and the Governor.
- The University of Illinois Urbana-Champaign (UIUC) did not submit a copy of the survey to the President and Minority Leader of the Senate and the Speaker and Minority Leader of the House of Representatives and the Governor.

The Higher Education Veterans Service Act (110 ILCS 49/15 (a)) requires all public colleges and universities to conduct a survey of the services and programs that are provided for veterans, active duty military personnel, and their families, at each of their respective campuses and shall make the survey available on the homepage of all campus Internet links after the completion of the survey. Each public college and university shall also provide a copy of its survey to the (1) Board of Higher Education; (2) the Department of Veterans' Affairs; (3) the President and Minority Leader of the Senate and the Speaker and Minority Leader of the House of Representatives; and (4) the Governor.

In discussing these conditions with University officials, they stated a draft copy of the completed survey was posted online but due to a misunderstanding of the instructions, the final version of the completed survey was not posted or sent to the required officials.

Failure to make available the completed survey in campus internet links and failure to provide copies to the Department of Veterans' Affairs, the President and Minority Leader of the Senate, the Speaker and Minority Leader of the House of Representatives and the Governor, results in noncompliance with the Act. (Finding Code 11-37)

Recommendation

We recommend the University implement procedures to comply with the requirements of the Act.

University Response:

Accepted. Although the Chicago and Urbana-Champaign campuses did not submit a copy of the final 2009 survey to all of the required parties, they did submit the Fiscal Impact report in both 2010 and 2011, as required by statute. In addition, the 2009 survey has since been sent to the required offices.

Prior Findings Not Repeated – Federal Compliance Year ended June 30, 2011

A. Incompatible Allocation Methodologies for Payroll Costs

The University (Chicago campus) does not use an appropriate methodology for allocating payroll and fringe benefit expenditures for academic personnel to the MCH Block Grant program. (Finding Code 10-06, 09-06)

In the current year, the University discontinued the use of random moment study and required timesheets or annual certifications to be completed for personnel charges to the MCH Block Grant.

B. Inadequate Procedures to Determine the Allowability of Cost Share Expenditures

The University does not have an adequate process in place to determine the allowability of certain expenditures used to meet the cost share (matching) requirement of the SNAP program. (Finding Code 10-07, 09-08)

In the current year, the matching requirement was terminated effective October 1, 2010.

C. Unsupported Volunteer Rate Used for Cost Share Requirement

The University used an unsupported rate to value services of volunteers used to meet the cost share (matching) requirements of the SNAP Program. (Finding Code 10-08, 09-09)

In the current year, the matching requirement was terminated effective October 1, 2010.

D. Inadequate Documentation for Institutional Letter of Credit Cash Draws

The University does not have adequate documentation to demonstrate it minimized the time elapsing between the draw (receipt) and expenditure of federal funds for individual awards funded with institutional letters of credit. (Finding Code 10-10, 09-10)

In the current year, an alternative testing approach was approved by the Office of the Inspector General from US Department of Health and Human Services and National Science Foundation.

E. Incomplete and Inaccurate Annual Effort Certifications

The University does not have an adequate process to ensure annual effort certifications are accurate and completed in a timely manner. (Finding Code 10-13)

In the current year, the University implemented procedures to ensure annual effort certifications were accurate and completed timely.

F. Incomplete Semi-Annual Expenditure Confirmations

The University does not have an adequate process to ensure all semi-annual expenditure confirmations are certified by principal investigators in a timely manner. (Finding Code 10-14)

In the current year, the University implemented procedures to ensure semi-annual expenditure confirmations were certified and received timely.

Prior Findings Not Repeated – Federal Compliance Year ended June 30, 2011

G. Inaccurate Amounts Reported in Quarterly Federal Financial Reports

The University did not accurately report cash disbursements in its quarterly federal financial reports submitted for the Cooperative Extension Services program. (Finding Code 10-17)

In the current year, no exceptions were noted in the reports sampled.

H. Unallowable Costs Charged to Federal Program

The University claimed expenditures under the Maternal and Child Health Services Block Grant to the States (MCH Block Grant) program and used expenditures to meet cost share requirements of the Research and Development Cluster that are unallowable. (Finding Code 10-24)

In the current year, similar exceptions were not identified.

I. Inadequate Controls Over Federal Expenditures Paid with Procurement Cards

The University has not established adequate internal controls over federal expenditures made with procurement cards (Finding Code 10-31, 09-31)

In the current year, the University eliminated the use of the auto reconciliation feature for procurement cards defaulting to a federal project.

Prior Findings Not Repeated – State Compliance Year ended June 30, 2011

J. Inadequate Controls Over Patient Billing System

The University has not established adequate internal controls over access to the patient billing system used in its financial reporting process. (Finding Code 10-36, 09-38)

In the current year, the University established procedures to perform periodic user access reviews for the patient billing system.

K. Untimely Bank Account Reconciliation Supervisory Reviews

The University did not perform supervisory reviews over bank account reconciliations in a timely manner during the fiscal year. (Finding Code 10-39)

In the current year, the University established procedures to perform timely supervisory reviews over bank account reconciliations.

L. Failure to Follow State Regulations for Recording Equipment

The University improperly records equipment additions by reducing the purchase price for the value of trade-ins. Additionally, the University does not calculate a gain or loss on disposal of equipment from trade-ins. (Finding Code 10-42, 09-47)

In the current year, the University discontinued its practice of recording equipment additions by reducing the purchase price for the value of trade-ins and began calculating a gain or loss on disposal of equipment from trade-ins.

M. Failure to Report Payroll Warrant Information

The University did not report payroll warrant information to the Office of Secretary of State as required by State Statute. (Finding Code 10-43)

In the current year, the University implemented procedures to report payroll warrant information to the Office of Secretary of State.

Financial Related Information Summary Year ended June 30, 2011

Financial related information presented in this section of the report includes the following:

- Financial Related Schedules:
- Schedule of Expenditures of Federal Awards
- Attachments to Schedule of Expenditures of Federal Awards
- Notes to the Schedule of Expenditures of Federal Awards

The Schedule of Expenditures of Federal Awards presented in this section has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in the auditor's opinion, it is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The findings and auditor's reports on compliance testing and questioned costs and internal control related to federal awards are presented in the Compliance Report section of this report.

Notes to Schedule of Expenditures of Federal Awards Year ended June 30, 2011

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal awards activity of the University of Illinois for the year ended June 30, 2011, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The schedule designates federal awards as direct and pass-through. Direct awards represent federal funding awarded directly to the University by a federal funding agency. Pass-through awards are federal awards passed through a non-federal entity.

(2) Student Loan Programs

As disclosed in the non-cash federal awards sections of the Schedule of Expenditures of Federal Awards, the Federal Direct Student Loans Program (CFDA 84.268) administered by the University awarded approximately \$231 million at the Urbana Campus, \$222.8 million at the Chicago Campus and \$23.7 million at the Springfield Campus.

There were no federal capital contributions received for the year ended June 30, 2011 under the Federal Perkins Loan Program (Perkins), the Health Professions Student Loans Program (HPSL), the Loans to Disadvantaged Students Program (LDS), or the Nursing Student Loans Program (Nursing). The Nurse Faculty Loan Program (NFLP) received \$87,846 in federal capital contributions for the year ended June 30, 2011.

The values of new loans issued to students for the year ended June 30, 2011 were approximately \$5 million for Perkins (CFDA 84.038), \$1.5 million for HPSL (CFDA 93.342), \$105,300 for NFLP (CFDA 93.264), \$163,136 for Nursing (CFDA 93.364, and \$35,000 for LDS (CFDA 93.342).

The total loan balances outstanding at June 30, 2011 were approximately \$39.1 million for Perkins, \$7.5 million for HPSL, \$386,743 for NFLP, \$22,180 for Nursing, and \$506,830 for LDS.

Notes to Schedule of Expenditures of Federal Awards Year ended June 30, 2011

(3) Non-cash Federal Assistance

The University of Illinois received a pass-through grant from Illinois Department of Human Services (IDHS) to review the applications of families seeking subsidized day care under the Temporary Assistance for Needy Families, Child Care Development Funds Cluster, and Social Services Block Grant programs. The applications were reviewed according to guidelines set by IDHS, who was the prime recipient of the federal funds. As a result of the University's application review, the State Comptroller distributed \$8,622,031 of federal funds to day care providers as follows:

<u>.</u>	CFDA Number	. <u>-</u>	Non-Cash Assistance
Temporary Assistance for Needy Families	93.558	\$	5,437,417
Child Care Development Funds Cluster:			
Child Care and Development Block Grant	93.575		1,052,867
Child Care Mandatory and Matching Funds of the			
Child Care and Development Fund	93.596		2,083,565
Social Services Block Grant	93.667	_	48,182
Total non-cash federal assistance		\$_	8,622,031

These federal funds which are paid directly by the State to the providers are considered to be non-cash federal assistance to the University. Although these amounts are not reported on the schedule of expenditures of federal awards, they have been included for purposes of determination of major programs.

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2011

(4) Subrecipient Payments

Of the federal expenditures presented in the Schedule, the university provided federal awards to subrecipients as follows during the year ended June 30, 2011:

Federal agency name	CFDA/ARRA/CFDA program name	 provided to subrecipients
