10.1 Release Upgrades – User Information

General availability – Sunday, March 28th, 2009

1. General and Spend Director

   a. **Split by Amount of Price at the Header Level** – requisitions can now be split between different custom fields at the header level using amount of price.

   ![Split by Amount of Price at the Header Level](image)

   b. **Email Reminders for Pending Approvals** – an email will be sent to any user with a pending approval that is older than the specified interval, reminding them to approve the document if possible.

   ![Email Reminders for Pending Approvals](image)
c. **Additional Product Search Filters** - users can now filter product search results by the Green, Recycled, and Energy Star Product Flags. User can also filter results by Result Type.

![Refine and Filter Search](image)
d. **General Email Notification Enhancements** – the email notification now contains information for cart name, cart number, who prepared a cart, and who approved/rejected a document. This information will appear on the RE: line. Any notes added to the document will appear at the bottom of the email.
