

Grant Code Conventions

The grant code convention for sponsored projects is a five-position, alphanumeric code that always begins with the character designated in the table below. This convention has been developed for reporting and identification purposes and for efficiency in assigning grant codes.

	US Trust	Other Gov	Private	State of IL
URBANA	A	B	C	D
CHICAGO	E	F	G	H
SPRINGFIELD	J	K	L	M

Sponsored Project Fund Ranges

All data-enterable Funds associated with a particular grant correspond to the fund range listed below.

Fund Type	Agency	Fund Range
4A	U.S. Government Grants & Contracts (498000 - 498999 reserved for Federal Work Study) (499000 - 499999 reserved for Grants Use Only)	400000 - 498999
4C	Other Governmental Agencies Grants & Contracts	500000 - 509999
4E	Private Grants and Contracts	510000 - 559999
4G	State of Illinois Grants and Contracts	560000 - 599999

Index Code Convention

For Grants and Contracts purposes, the only parts of the FOAPAL string that are used are the Fund, Organization and Program elements. Account codes in research accounting are handled manually, so the Account element part of the FOAPAL is not represented in the index code. Sponsored project index codes begin with the five-digit grant code. The sixth position is alphanumeric and sequentially represents the number of index codes created for each grant code.
